Hello Google Search Removals Team,

This is a structured follow-up for Case 7-4274000039113. It provides (1) the exact URLs, (2) the unlawful or defamatory content, and (3) supporting evidence links.

I am Anthony Gordon Brodie ("Soul"), an Australian software developer (ABN 28 387 377 607), owner of Legion Killfeed - https://killfeed.co.

Requested delisting URLs (exact content URLs)

1. https://aggropvp.com/ - fraudulent DMCA page used to imply legal authority and attack credibility
2. https://aggropvp.com/video_player.html
3. https://skynetvslegion.com/
4. Reddit thread and comments (direct URLs)
   https://www.reddit.com/r/DayZDiscussions/comments/19e9o29/legion_kill_feed_whats_souls_issue
   https://www.reddit.com/r/DayZDiscussions/comments/19e9o29/comment/kwcjm4s/

   https://www.reddit.com/r/DayZDiscussions/comments/19e9o29/comment/lnt64cd/

URLs to review/delist:
https://aggropvp.com/
https://aggropvp.com/video_player.html

What is happening:
AggroPVP.com publishes a page presented as a DMCA notice with a case reference "DMCA-2024-RR-001987" and a "REMOVED" status. It is designed to look like a legitimate legal takedown record and to imply legal action or wrongdoing associated with me or my service.

The page includes a "Redirecting to Legal Information Portal" flow, but it redirects to:
https://aggropvp.com/video_player.html
This page plays "Never Gonna Give You Up" (Rick Astley). The "RR" in the case identifier is consistent with the rickroll reference. This is a fraudulent use of a DMCA styled page to impersonate a legal process and cause reputational harm by creating a fake "legal takedown" record.

Additional harm (explicit reference required):
The same AggroPVP.com site is used for targeted harassment, including targeting my fiancée and publishing intimate images of me and images of my children. This is captured in the evidence file below:
https://they-wish-i.died.space/harrassment/2025-09-29-aggropvpdotcom.jpg

Prior registrar abuse history. A prior abuse thread documenting action taken for harassment and defamation is here: https://they-wish-i.died.space/harrassment/2023-09-29-porkbun-email-thread.pdf

Evidence for the fraudulent DMCA page:

2. SkynetVSLegion.com - defamatory "comparison" page containing false statements presented as fact

URL to review/delist:
https://skynetvslegion.com/

Exact defamatory statements (copied as plain text, as requested):

- "Issues: Allegations of code theft and unethical practices; a paid service with customer support complaints."
- "Website: Limited looks like a 5 year made it. Lacking all functions to make it even useful other then command lists."
- "Legion Killfeed has faced criticism for being a paid service and allegations of code theft and unethical practices. Users have reported issues with customer support and accusations of slander against competitors."

Why this violates my rights / is illegal under applicable law:

- These statements are published to the public, identify my product and business, and assert serious misconduct as if it is established ("code theft", "unethical practices"). They are presented as factual issues, not opinion, and they cause reputational and commercial harm. This is defamatory in Australia and forms part of an ongoing competitor-led campaign.

SkynetVSLegion.com presents itself as a factual comparison, but it omits relevant context about Skynet falsifying its own stats output. Using Skynet's published Score formula and their displayed card numbers, the printed scores and KDs contradict the inputs and basic DayZ logic (example summary below). This is relevant to credibility, motive, and bad faith.

Additional context showing bias and bad faith (falsified data issue):

Skynet score formula (as published by Skynet):
Base = Kills x 3.0 + Deaths x -1.5 + Headshots x 2.0 + Killstreak x 2.0 + Deathstreak x -0.5 + Damage x 0.08 + Distance x 0.4 (cap 1250 per event);
Bonuses: If headshot rate >= 0.5 add +1.5 per event. If damage per kill >= 150 add +0.03 per damage.
Multiplier: if KD >= 2.5 use x2.5. Otherwise use x2.0.
Cards do not expose streak counts or per-kill distances, so those terms must be treated as 0, creating a strict lower bound score.

From the screenshot:
#1 duck: K=1.5M, D=1.5M, HS=257.9k, DMG=51.4M, KD shown=87,701.83, Score shown=7.5M.
#2 [XB] ALL CAR PVP RACE: K=1.4M, D=1.4M, HS=243.1k, DMG=134.8M, KD shown=103,607.45, Score shown=9.0M.

Reality: K=D on both, so true KD=1.0. HS rate is about 0.17 on both, and damage per kill is 34.3 and 96.3, so bonuses do not apply. Multiplier is x2.0.

Lower bound scores (streaks 0, distance 0):
#1 Base = 3K - 1.5D + 2HS + 0.08DMG = 6,877,800, then x2.0 = 13,755,600. Printed score 7,500,000 is below the minimum.
#2 Base = 13,370,200, then x2.0 = 26,740,400. Printed score 9,000,000 is below the minimum.

KD contradiction: with K=D the KD must be 1.0. Printed KDs of 87,701.83 and 103,607.45 imply deaths of about 17 and 14, not 1.5M and 1.4M.

Damage per kill check: DayZ player health is 100. Averages of 34.3 and 96.3 per kill do not support kill counts.

Conclusion: Using Skynet's own published system, the displayed stats contradict themselves. SkynetVSLegion.com does not disclose this, and presents a biased and factually unreliable comparison while publishing defamatory allegations about my business.

3. Reddit - coordinated defamation campaign, request reconsideration of delisting refusal

Google previously advised contacting the webmaster. I have done so and issued formal notices. Reddit has refused to remove the content and has treated repeated reports as "duplicative / frivolous / vexatious / bad faith" despite the content being defamatory and part of ongoing targeted harassment. Google Search distribution is the primary amplification mechanism, and delisting is the only practical remedy to limit ongoing harm via search.

Primary thread and comments (direct URLs listed at the top of this email).

Core defamatory claims published (examples in thread and screenshots):

- "The code has malicious intent"
- "It removed and edited my files without my permission"
- "It adjusted server settings"
- "Soul has screwed over other owners"

These are presented as factual personal experience claims to dissuade others from using my service and damage my business reputation.

Evidence:

- https://they-wish-i.died.space/harrassment/2024-01-24-obviously-mario-thespam.jpg

Evidence of subreddit moderation context tied to the same repeating defamatory narrative:

Evidence that Reddit dismissed reports as bad faith:

- https://they-wish-i.died.space/harrassment/2024-01-26-reddit-comment-chains.json
4. Identity linkage and coordinated campaign (context)
   The campaign and linked properties are connected through recurring identifiers and cross-promotion:
   https://they-wish-i.died.space/harrassment/2025-09-19-kamikaze-is-mathew-tinjanowski.jpg
   https://they-wish-i.died.space/harrassment/2025-12-22-connecting-website-to-discord-plus-website-threat-then-denial.png

Requested Google Search action:

A) Delist the AggroPVP fraudulent DMCA page and its redirect: https://aggropvp.com/ & https://aggropvp.com/video_player.html

B) Delist the SkynetVSLegion defamatory comparison page: https://skynetvslegion.com/

C) Reconsider the Reddit delisting refusal for the URLs listed, given Reddit's refusal to remove after formal notice, and the ongoing defamation and targeted harassment.

This matter also includes targeted harassment involving my fiancée and the publication of intimate images of me and images of my children (see https://they-wish-i.died.space/harrassment/2025-09-29-aggropvpdotcom.jpg). Google Search visibility continues to compound reputational, personal, and family harm.

If you need any specific quote transcribed as plain text from any screenshot above, tell me which URL you are assessing and I will provide the exact lines as plain text in the next reply.

The PDF "2025-12-22-google-take-down-7-4274000039113.pdf" is my last attempt at replying, originally it included an attachment MP4 ("2025-12-22-dmca-rick-rolled.mp4"), which appears to have triggered the size limit. I am resending that same email as a PDF attached as it details the harassment context further.
