He's literally mocking the process with a "Rick Roll" now.
I've attached the Porkbun thread and a few other related PDF that give you the exact context, I had previously got Porkbun (hosting services) to take it down previously but I'm just sick of this shit.

It is lies. By competitors. One account was suspended by you guys for their abuse but their lies get to stay? `u/Brief_Ordinary1438` is proven to be my direct competitor and former staff member who is spreading lies after he stole my code and distributed it to get people behind him. `u/cage3013` cancelled their services immediately, without question. it is affecting my business and it is unlawful slander.

@Kamikaze No you little bitch who LOVES drama. I left your ass alone hoping you would grow up and move on like it should have been from the start but all you know how to do is run your mouth. Wrong p...

aSoul | LEGION KILLFEED 06/05/2024 1:31 AM
Okay kid, but you're the one who apparently knows my code so who's doing shit to who's shit?

I don't even care you stole my code to make your bot at all anymore, I moved on when I saw how it took over 1000 commits to add 23,000 lines of code in the time I added 870,000 lines of code, in less commits.

I care about the slander from you and your boyfriend, nothing else, I could do the exact same shit to you but my pictures aren't faked & have timestamps

Just move on already.

Kamikaze 06/05/2024 1:31 AM

So what I use ChatGPT? Everyone who writes code does, literally, but you literally directly stole my shit and now you're acting like you know anything about my code when it's been a year since then.

Do it then, you claim to know my code, stop making threats and do it, I don't give a fuck, ya'll are sad as fuck.

Kamikaze 06/05/2024 1:08 AM
Okay soul.

I know your code it's SHIT. A few people have seen it and all agree 🤣

You've requested $10,000.00 USD from mathew trojanowski

"Payment for use…llectual property."

We'll let mathew know right away that you requested money. You can see the details in your Activity in case you need them later.

The video:
https://they-wish-i.died.space/Media/h-kami-mathew-n-crix-edward/2024-06-20-kamikaze-confesses-to-skizza.mp4
In the video he has further lies he tells like, the PayPal allegation is false, I requested $10,000 via paypal for unauthorised use of my intellectual properly and they deleted his account.

He denies Porkbun too his website down
(Attached but also available at: https://they-wish-i.died.space/Media/h-kami-mathew-n-crix-edward/website/2023-09-29-porkbun-email-thread.pdf)
He claims I "fucked over" BIGFATMODS when in truth, I did one petty thing relating to server leaderboards just to brag I had achieved first place (in server rankings)

At the end of the day this is intended to be a business, not a charity, I have dedicated close to three months of every single day working on code to make money from it, if you're not wanting money, fine, I'll register as a Sole Trader and make money myself, but I can't afford to spend time working on software for free, I can't afford to dedicate my time to writing code that is freely distributed

! Kami 06/24/2023 3:08 AM
Wow didn't even give me time to think about anything before you just did. Worked a fucking long day and didn't want to respond to something like this after having a shit day because things weren't going to be said in the right tone. For fucks sake think sometimes before doing something impulsive. I had a bad feeling about this and should have listened to my gut I guess because every dam time don't I regret it. Thanks soul

! aSoul 06/24/2023 3:09 AM
I had a bad feeling about this when I was the only fucking one working on it. You literally told me you're out because all I want is money. That's what a fucking business is.

! Kami 06/24/2023 3:10 AM
Dude you took it the wrong way again. Fuck I hate text it never goes well this is why I don't respond to anything like this over text and would prefer t voice to voice smh

Not once did he fucking talk to Salty or me before causing drama

He hopped in VC once and he was getting weed for 5 hours and we talked for 5 minutes and then the next day he did this.

He keeps this up and I'll release the shit I got I'm over this drama and it needs to end or I'll end both of us.

Honestly, I was trying to stay out of it. That's why I've not posted anything or mentioned anything to anyone. I'm not directly involved. My participation is towards helping the structure and services with soul and progress on the bot hes doing, he was my first partner in dzmt, so felt I should assist him.

Any drama or related issues in my perspective should be between you and soul privately. At the end of the day if this keeps up both sides will have a bad name.

Obviously I do think you both need to talk and decide but it goes both ways, soul can't talk shit about you and you can't talk shit about soul.

Figured the answer I would get. Solid he keeps this up I can't promise you won't get caught in the crossfire. I've been doing everything I can to hold myself back I've said nothing but yet I'm getting fucked by him after HE took MY code and ran saying HE did all the work that's a back stab and a very Jarvis thing to do.

He makes this personal mark my words I will not stop until everything he's involved in is turned to dust.

He wouldn't talk. He blocked me after I said give me 24 hours to let things settle so we can talk we a clear head and he blew it all up

I'm never working with that man over what he did he completely screwed me over what?

I treated that man so well paid all server cost 600+ monthly gave him my code for the killfeed

Gonna be honest with ya here, I'm getting frustrated with everything getting delayed waiting for someone to tell us we need to do either a partnership or a sole trader with two "consultants", I tried to get all of this in motion (Skynet Killfeed ›) then started the process (Skynet Killfeed ›) of registering it all in Aus and Salty completely ignored it, now he wants to outsource website to someone else so what exactly is his contributions meant to be? I've done 70.9% of the work on the killfeed itself (based on commit history on github), I assumed (because he said he was working on it) that he was doing the website, so why are we now looking into paying another team to handle it?
Not saying I want to cut him out at all btw, just don't understand what he's on the team for if he doesn't do anything ever?

So your just gonna let him slander me eh?

Over what? What have I done to continue this? I've said little to nothing. Hope the sad sack of shit goes away.

Do you even know the full story? I've been trying to advoid drama the last few years and have been just mentally drained of it all. This right here needs to stop. He's making himself look like an ass and trying to blame it on me.

I never wanted this and was simply trying to tell this man I didn't want money over his sketchy tax shit. I didn't want to go down for that. That's it period.

It totally came off wrong and soul lost his shit in an hour while I was at work self imploded blew up everything we had done.

You do remember when I said I have my fucking hand injury a year ago right? Yeah that's been my slow progress. Its not easy to write code let alone do anything with a fucked had I'm sorry I didn't produce much the last year but the work I did do was a lot.

That above is a conversation between Kamikaze AKA Mathew and a friend who helped start the bot back up after the separation. and he's wildly inconsistent with his lies, he both threatened the website, then denied it, then two years later, messaged it to me on facebook

Well that lasted long.

Just sending this as an apology for future events man. Again sorry that you'll get caught in the fire between me and soul but he's giving me no choice. I've already made my mind up and the DayZ community is no longer a place I want to partake in as far as game or server wise Killfeed will always stay but as my personal rep I'm over constantly protecting myself over false claims by people I trusted and betrayed me and cropped screenshots to make them a victim.

http://aggropvp.com/ will be going live with 44 screenshot of my own and some are not very friendly to anyone around soul... He gave me no choice he can't do a clean split.

The only way all the bullshit is gonna stop is if both of you stop retaliating against each other. Ie you stop talking shit, he stop talking shit and you go separate ways. Other ways it's just going keep going on.

In 2024, they accused me of DDOSSing them and I used that to prove the connection of DayZSkynet.com, BIGFATMODS.com, SkynetVSLegion.com and AggroPVP.com all being jointly hosted.

If you check the video where he confesses, he admits to using 6 dedicated servers which run virtual machines to use multiple accounts and IPs to host and attack from.

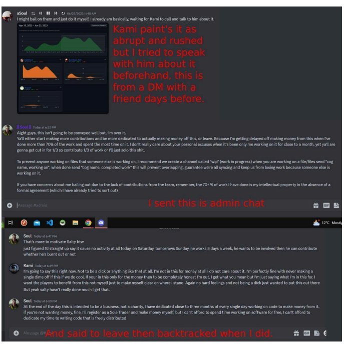
To be absolutely thorough, I 100% made it clear they were not to use my code.



aSoul 06/23/2023 11:48 AM
I might bail on them and just do it myself, I already am basically, waiting for Kami to call and talk to him about it.

Kami paint's it as abrupt and rushed but I tried to speak with him about it beforehand, this is from a DM with a friend days before.

|| Soul || Today at 6:32 PM
Aight guys, this isn't going to be conveyed well but, I'm over it.
Ya'll either start making more contributions and be more dedicated to actually making money off this, or leave. Because I'm getting delayed off making money from this when I've done more than 70% of the work and spent the most time on it. I don't really care about your personal excuses when it's been only me working on it for close to a month, yet ya'll are gonna get cut in for 1/3 so contribute 1/3 of work or I'll just solo this shit.

To prevent anyone working on files that someone else is working on, I recommend we create a channel called "wip" (work in progress) when you are working on a file/files send "cog name, working on", when done send "cog name, completed work" this will prevent overlapping, guarantee we're all syncing and keep us from losing work because someone else is working on it.

If you have concerns about me bailing out due to the lack of contributions from the team, remember, the 70+ % of work I have done is my intellectual property in the absence of a formal agreement (which I have already tried to sort out)

just figured I'd straight up say it cause no activity at all today, on Saturday, tomorrows Sunday, he works 5 days a week, he wants to be involved then he can contribute whether he's burnt out or not

Kami Today at 6:49 PM
I'm going to say this right now. Not to be a dick or anything like that at all. I'm not in this for money at all I do not care about it. I'm perfectly fine with never making a single dime off if this if we do cool. If your in this only for the money then to be completely honest I'm out. I get what you mean but I'm just saying what I'm in this for. I want the players to benefit from this not myself just to make myself clear on where I stand. Again no hard feelings and not being a dick just wanted to put this out there
But yeah salty hasn't really done much I get that.

Did you rename the Killfeed @aSoul
The last I saw you were trialing on conquest I think

aSoul Today at 11:31 AM
Killfeed has been named Legion since 27th of May 2023

It's still in Conquest, actually working on a custom command for Conquest

MrSMEHG™ Today at 12:16 PM
What was it before then I was in the discord at some point
Glad to see it's still progressing well though

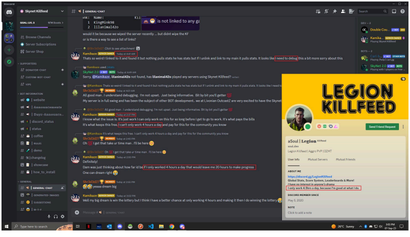
aSoul Today at 12:22 PM
The previous version still exists under the name "Skynet 2.0" but the guy who is running it doesn't understand my code properly so it's full of bugs, for two days he's been tryna work out two stats/link command errors & it's so simple for both issues
He's got duplicate gamertags in his database for one case & for the other case the guy wiped the server's stats but in my system (which he's very clearly using) wiping stats doesn't delete your global linked account so the command is getting conflicting information, which is exactly why I have it set up for Legion to update linked accounts from global database to server database (once you link, you're linked forever unless you unlink)
Buuuut I don't like to discuss that abomination in here, if you have more questions related to it, DM me

MrSMEHG™ Today at 12:27 PM
Damn
I'm just very happy to see this talk about Global stats

aSoul Today at 12:29 PM
Global is crucial for what I want to achieve

September 6, 2023

aSoul | Owner Yesterday at 11:47 AM
just shows how little he knows about the code, when the guy wiped stats, he unknowingly unlinked his account, it's throwing errors because he's still linked in global but not in server, bot is getting conflicting data, precisely why I made it so the bot updates linked accounts every single time stats command is run



Kamikaze Today at 4:41 AM

To protect our buyers and sellers, and to promote a safe marketplace, please do not ask to communicate outside of the Fiverr platform or exchange personal contact information. Please refrain from communicating through different communication channels. Business communications, services, and all interactions should stay on the Fiverr platform at all times for your own safety. For more information, please review our Terms of Service.

This is your second warning and therefore your account is currently restricted and under review by our Trust and Safety team.
During the period of the review, you will be able to complete your active orders. However, you cannot place or receive new orders and you cannot communicate with users, other than your buyers/sellers within an active order. Our team will keep you posted with any update.

And this harassment shit is still ongoing. 6 days ago I was still fighting Trustpilot about false reviews from them.

So why is it back? Why are the criminals in your accounting department breaking the law?

When are you cunts going to abide by the law? I've literally been emailing you cunts for nearly 24hrs straight and not a single thing has been done except your extended your criminal behavior by altering the reviews to paint a false narrative.

Kamy left a new review

Hi Anthony Brodie,

Kamy just left a new **1-star** review of **killfeed.co**:

My experience with Legion Killfeed was honestly really bad. The bot owner was extremely difficult to deal with, communication were unpleasant, and problems were met with hostility instead of help. If you're looking for a bot with decent suppor for your server I'd recommend looking elsewhere.

Hi,

Thank you for getting back to us.

We kindly request that all communication be maintained in a decent and professional manner. As the reviewer has deleted their review, we are unable to assess the case further. Accordingly, we consider this matter to be resolved and the case is now closed.

Thankyou for your understanding.

Kind regards,

Reshma

Subject: Update on the review you flagged - Case #00749991

Hi killfeed.co,

We're following up about the review by Kamy, which you flagged as not based on a genuine experience.

Our decision

We've carefully assessed the review based on your selected flagging reason. We've found that the review follows our guidelines, so it will remain online.

How we assess flagged reviews

When reviews are flagged for not being based on a genuine experience, we run them through a series of checks and analyze various factors, such as:

- The reviewer's activity on Trustpilot (e.g., number of previous reviews and past engagement with businesses)
- If the content of the review follows our guidelines for reviewers
- Patterns of unusual behaviour detected by our automated technology

In this case, we weren't able to detect any suspicious patterns or content, so the review stays online.

What counts as a genuine experience

A genuine experience doesn't always mean a purchase. It could also include an interaction, like:

- Browsing your website
- An online chat with your business

Reviewers don't need to use their real names when submitting their review, so you might not always recognize them from the reviewer name alone. This is why we recommend using our "request information" tool or replying to the review so you can share your perspective.

Share your side of the story

If you haven't already, we recommend replying to the review. Your reply appears alongside the review and gives potential customers a complete picture from both your side and the reviewer's—which can help build trust and credibility.

Want us to take another look?

If you believe we've made a mistake, please reply to this email with any additional context, and our team will reassess the case.

Thanks,

Trustpilot

Please note that depending on the situation, we may use automated detection technology, a team of experts, or a combination of both to assess content on the Trustpilot platform.

Hi,

Thanks for reaching out to us about our assessment of the review by Kamy.

We've looked into the review again with the information you provided.

We've taken the review offline

Based on the information you shared about why the review is not based on a genuine experience, we've now taken the review offline, and it's no longer visible on your profile page.

We've let the reviewer know about this decision. Keep in mind that if they dispute it and provide information about their experience, the review may be reinstated.

If you have any questions, please let us know by replying to this email.

Thanks,

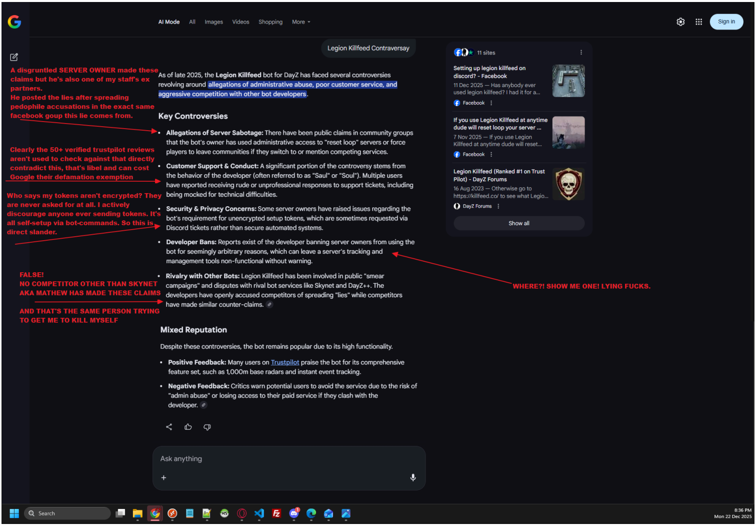
If you can't taken their lying slander down with all this context then I'll add Google to the list of platforms failing to carry out their legal obligations and I know that you guys are exempt because you only publish links, but that was decided before you added the AI mode which actively makes false representations about businesses and doesn't even fully use the available information to assess stuff, like this below, the post it's using for the resetting lies is posted by Joel Walker and in that same group (A group on facebook of 33,000 people that only Joel and his Girlfriend admin) is Joel Walker also calling me a pedophile and bumping the posts constantly which I've strenuously contacted Meta about and they, like reddit, discord and trustpilot, fought me every step of the way. https://they-wish-i.died.space/meta-support has an audio recording of my phone call with meta after 12 hours of waiting in a live chat for them just to close the ticket with no follow up after asking me to wait in the chat for them and https://they-wish-i.died.space/kids-unsafe-in-jackalope-dayz shows how Joel Walker uses that facebook group to constantly attack anyone who opposes his opinions in DayZ.



A disgruntled SERVER OWNER made these claims but he's also one of my staff's ex partners.
He posted the lies after spreading pedophile accusations in the exact same facebook goup this lie comes from.

Clearly the 50+ verified trustpilot reviews aren't used to check against that directly contradict this, that's libel and can cost Google their defamation exemption

Who says my tokens aren't encrypted? They are never asked for at all. I actively discourage anyone ever sending tokens. It's all self-setup via bot-commands. So this is direct slander.

FALSE!
NO COMPETITOR OTHER THAN SKYNET AKA MATHEW HAS MADE THESE CLAIMS

AND THAT'S THE SAME PERSON TRYING TO GET ME TO KILL MYSELF

As of late 2025, the **Legion Killfeed** bot for DayZ has faced several controversies revolving around allegations of administrative abuse, poor customer service, and aggressive competition with other bot developers.

Key Controversies

- **Allegations of Server Sabotage:** There have been public claims in community groups that the bot's owner has used administrative access to "reset loop" servers or force players to leave communities if they switch to or mention competing services.
- **Customer Support & Conduct:** A significant portion of the controversy stems from the behavior of the developer (often referred to as "Saul" or "Soul"). Multiple users have reported receiving rude or unprofessional responses to support tickets, including being mocked for technical difficulties.
- **Security & Privacy Concerns:** Some server owners have raised issues regarding the bot's requirement for unencrypted setup tokens, which are sometimes requested via Discord tickets rather than secure automated systems.
- **Developer Bans:** Reports exist of the developer banning server owners from using the bot for seemingly arbitrary reasons, which can leave a server's tracking and management tools non-functional without warning.
- **Rivalry with Other Bots:** Legion Killfeed has been involved in public "smear campaigns" and disputes with rival bot services like Skynet and DayZ++. The developers have openly accused competitors of spreading "lies" while competitors have made similar counter-claims.

Mixed Reputation

Despite these controversies, the bot remains popular due to its high functionality.

- **Positive Feedback:** Many users on Trustpilot praise the bot for its comprehensive feature set, such as 1,000m base radars and instant event tracking.
- **Negative Feedback:** Critics warn potential users to avoid the service due to the risk of "admin abuse" or losing access to their paid service if they clash with the developer.

WHERE?! SHOW ME ONE! LYING FUCKS.
