Long asf story, I'm sure Mathew will tell you plenty of lies about it all but he's slandering me with websites which I didn't give that much of a shit about but now he's got his boyfriend posting pictures of my kids on discords full of creepy ass motherfuckers. Basically, your brother needs to be in jail. I've gone to the police but I'm from Australia so the police are basically useless, can you get that fuckhead to fuck off and leave my kids outta shit.

I can provide videos & screenshots if you want or you can just check them out in <https://discord.gg/SUtcTbdagy>

I am not making a threat of violence, but I will fly over there and take him to court myself because I have absolute proof he stole my code. I don't give a shit about the code anymore, the fuckwit needs to leave my fucking kids out of it. They're 4yrs old and 8yrs old for fucks sake.

The fuckwit Crix that is doing all his dirty work is his little bitch who he sends after me so he looks good to everyone in this fucked up DayZ Community.

Tell him to fuck right off or it won't just be his sister that see's the kind of piece of shit he is.

Here's a zip file of all the sick shit these cunts are saying.

It took me 25mins to find you, him, your relatives, your phone numbers, your addresses, if this idiot does this shit to someone who's mentally unstable you and your family will end up in danger, maybe you should look into having him committed because he's fucked in the head man.
