Subject: Ticket #2792148: How to merge two or more business profiles
Date: Sun, 25 Aug 2024 05:55:41 +1000

Hi name,

We've received your request about **Domain Name Change**.

It sounds like you're in need of a business profile merge. Here are some reasons you might need to merge two or more business profiles:

1. Identical domains:

- If you have more than one domain, and all of the domains included in the merge automatically redirect traffic to one main domain.
- If you have more than one domain, and each domain shows exactly the same content.
- If you have more than one domain with the same content, but in different languages - usually because you have different business locations.

2. Rebranding:

- If you have changed your business name or brand, and your old domain redirects traffic to your new domain.

3. Business merger and or change of ownership:

- At our discretion, we may also allow profiles to be merged if a business has bought or taken-over one or more other companies/businesses.

If you fit within one of these categories, you'll need to review this article and fill out the [Merge Request form](#) at the bottom of the page:

Have a great day!
