Well unfortunately you'll be hearing from the Australian Consumer Commission and a lawyer for refusing to delete my personal data. I withdraw my consent and failure to remove it is unlawful processing. I will be contacting the Office of the Australian Information Commission and reporting the entire company for promoting cyber bullying after i showed you messages where this stalker has told me to kill myself you refuse to remove their lies from your website. That's promoting violence and hate, that'll be another department I'll have to contact and I'm already in communications with the esafety commissioner in regards to the stalker so I'll make sure to forward your refusal to comply with Australian Privacy Laws to them.

Hi,

Thanks for reaching out to us about our assessment of the review by Kyle.

We've looked into the review again with the information you provided.

The review stays online

We don't have enough information to indicate that it's not based on a genuine experience, and we've seen nothing suspicious about the review or the reviewer. Therefore, we've decided to keep the review online.

We understand this may not be the outcome you had hoped for, but we can only take the review offline if it goes against our [guidelines](#) for the reason you flagged. If you believe the review is against any other guidelines, you can [flag it for the relevant reason](#).

If you haven't already, we suggest [replying to the review](#) and sharing your side of the story.

If you have any questions or think we've made the wrong decision, please let us know by replying to this email.

Thanks,

Mira E,

It's a load of fucking bullshit and you're a waste of fucking time, not even verifying the lies you allow cunts to post about our fucking FREE DISCORD BOT that doesn't even fucking have the ability to do what this salty kid is accusing us of. The bot is VERIFIED by discord. You are just enabling toxic people who have been telling me to kill myself to continue getting away with cyber bullying.

Their review is lies about functions our discord bot doesn't even have? Rather than using an algorithm to check it, why aren't you checking it legitimately? What's the point in "trust"ing you to keep the integrity of reviews legitimate if you refuse to? That's false advertising.

Hi dayzmultitool.com,

Thanks for your inquiry about the [review](#) by Kyle, which you recently flagged as not based on a genuine experience.

The assessment

When a review is flagged for this reason, we no longer ask the reviewer to provide

documentation of their experience. Instead, we run it through our new detection software that analyses various factors, including:

- Reviewer history (e.g., number of previous reviews, past invitations to review other businesses),
- Other suspicious patterns detected by our [fraud detection software](#).

If the software determines that the content or the reviewer is suspicious, the review is taken offline; if not, it stays online.

The decision

In this case, we've assessed the review for the reason you flagged it and determined that it follows our [guidelines](#). Therefore, we'll keep the review online.

Keep in mind, a reviewer who's had a [genuine experience](#) may not have purchased anything. They could have made contact with your business another way, e.g. they may have browsed your website or had an online chat with your business.

Tell your side of the story

You can always [reply to this review](#) to help win respect and credibility. Replies appear alongside the review, so readers get the full picture from both a company's and reviewer's point of view.

If you have any questions or think we've made a mistake, please let us know by replying to this email.

Thanks,

Content Integrity Team
