I suggest you stop ignoring the PDFs and remove the rest of these false reviews filled with lies that you unlawfully denied removal of, lied about the status of and still continue to host them on your platform

Additionally, I demand that you immediately remove or amend these statistics, as they misrepresent the situation and wrongly portray my business as having acted improperly. These figures fail to reflect that my reports were made in response to unlawful reviews, and that it was your platform that failed to address legitimate support requests and uphold the law. The display must be updated to ensure it does not imply that my business engaged in any wrongdoing, when in fact the failure lies entirely with Trustpilot's handling of these cases.

That's because the information is on the review they gave a competitor, 5 stars with a request for help VS a slanderous attack from someone not in our system.

Who you, have allowed to slander my business, who you cannot provide any verifiable proof of any payment from at all? You do understand how ridiculously stupid you are being correct?

Now open and read the fucking attached PDF files you fucking previous have been send in 18 emails you stupid cunt.

Hi Anthony Brodie,

Thanks for your inquiry about the [review](#) by WARZONE, which you flagged for being about a different business.

### The decision

We've now read the review and found nothing to suggest it's for another business, so we won't be taking further action.

Please keep in mind that we don't remove a review just because it's non-specific and doesn't mention your business's name.

### Engage with the reviewer

If you still think that the review wasn't meant for your business, here's what you can do:

- You can [reply to this review](#) and engage in an open conversation. Replies appear alongside the review, so readers get the full picture from both a company's and reviewer's point of view.
- You could [request information](#) from the reviewer to find out more about them and their experience with your business.
- Keep in mind that a reviewer with a genuine experience may not have bought anything. They could have made contact with your business in [another way](#).

If you have any further questions, let us know by replying to this email.

Thanks,

Neenu D,
