Dear Google Legal Team,

I write in response to your follow-up regarding my earlier request for removal of defamatory material targeting my business Legion Killfeed.
Identity / Standing
I, Anthony Brodie, am the sole owner and operator of the Australian business Legion Killfeed. I am reporting this in my own right as the individual and business entity defamed in the content.
Google Search URLs
As requested, below are the full Google Search result URLs (obtained via right-click → “Copy link address”) for each offending page:
This is the precise url that leads back to those:

Basis of Unlawfulness
The content at these URLs is defamatory under the Defamation Act 2005 (NSW) and the uniform defamation laws of Australia:
Publication: Publicly accessible Reddit threads and competitor websites.
Identification: They name me directly (“Soul”) and identify my business, Legion Killfeed.
Defamatory meaning: They allege dishonesty, fraud, technical sabotage, and abusive conduct, presented as fact.
Falsity / Malice: These claims are false and published by a direct competitor to damage my reputation and divert customers.
No defences: Not substantially true (s.25), not honest opinion (s.31), and not privileged.

Supporting Evidence (attached):

Screenshots showing the Reddit user u/Brief_Ordinary1438 posting these allegations while simultaneously promoting the competing service Anon PVP / DayZ Skynet.
Proof that the individual behind these accounts is Mathew Trojanowski, owner of the competing Skynet/Anon PVP service and domains such as skynetslegion.com and aggropvp.com.
Screenshots of harassment and false DDoS accusations (which exposed the IP hosting ~30 domains/mailers targeting my former server names, used to disparage my product).
These exhibits show a deliberate competitor-driven smear campaign, further supporting the malicious publication element under Australian defamation law.
I respectfully request that Google proceed with delisting of these URLs from its search results.

Kind regards,

Anthony Brodie

Explain in detail why you believe the content on the above URL(s) is unlawful, citing specific provisions of law wherever possible. For requests other than defamation, Google shares the information in this open text field with Lumen for transparency purposes. Do not include any personal data in your explanation. For more information about Lumen, see [here](#).

The content at the listed URLs is unlawful because it constitutes defamation under the Defamation Act 2005 (NSW) and equivalent Uniform Defamation Laws across Australia.

Publication: The posts and comments are published publicly on Reddit and associated competitor websites (aggropvp.com, skynetslegion.com), making them available to a wide audience.

Identification: The content expressly names my business, Legion Killfeed, and myself ("Soul"), so readers clearly understand the statements refer to me and my service.

Defamatory Meaning: The material accuses me and my business of misconduct, dishonesty, and other negative behavior. These statements are presented as factual assertions, not opinion, and would cause a reasonable person to think less of me or my business.

Falsity: The allegations are false. They were created and promoted by a direct competitor in order to harm my reputation and divert customers. None of the claims can be substantiated by evidence.

Harm: These statements have caused reputational and commercial damage by misleading potential customers into believing false claims.

No Defences Apply:

The statements are not substantially true (Defamation Act 2005 (NSW) s.25).

They are not "honest opinion" because they are presented as factual basis (s.31).
They are not privileged communications.
Under Defamation Act 2005 (NSW), s.4, matter is defamatory if it "tends to lower the reputation of the plaintiff in the estimation of ordinary reasonable people." These publications clearly meet that test.
Accordingly, the material is unlawful because it is defamatory, false, and malicious in origin, published with the intent to damage a competitor.

In order to ensure specificity, please quote the exact text from each URL above that you believe infringes on your rights. If the allegedly infringing content is a picture or video, please provide a detailed description of the picture/video in question so that we may locate it on the URL in question.

Within the post body, the author asserts that Legion Killfeed is run dishonestly, makes derogatory claims about my conduct toward players, and suggests my service is unsafe or untrustworthy. These are serious falsehoods that directly damage my personal and professional reputation.<https://www.reddit.com/r/DayZDiscussions/comments/19e9o29/comment/ldsxli3/>
Alleges that Legion Killfeed is technically broken or unsafe, which is false and harms consumer trust.
The statement is made as fact rather than subjective opinion.<https://www.reddit.com/r/DayZDiscussions/comments/19e9o29/comment/int64ot/>
Suggests that my business has been banned or shut down for misconduct, which is completely false.
This is a direct attack on business viability and reputation.<https://aggropvp.com> and <https://skynetvsligion.com>
Both sites host promotional material for a competing service.
They reference Legion Killfeed negatively, framing it as inferior, fraudulent, or unsafe.
This content is misleading commercial disparagement, created and distributed by a direct competitor.

I have good faith belief that the reported content is unlawful for the reasons stated above. I confirm that the information I have provided is accurate to the best of my knowledge.
