

Subject: Appeal of harassment/bullying strike and complaint about evidence handling

Ticket details

Soul

2 days ago

Hi.

This is an appeal of the harassment/bullying strike on my account and a formal complaint about how Discord has handled my harassment case and my recent self-harm statement.

I am submitting this via the Appeals form exactly as your previous replies instructed, so please do not route me back to the same URL again. I need a human being to actually read this.

1. Related tickets and history

This appeal ties together the same long-running case already raised in multiple tickets, including:

- 58942905 - I am being mass reported on multiple platforms.
- 61451498 - Appeal - I reported the harasser; enforcement was applied to me instead.
- 61451749 - APPEAL - I reported the harasser; enforcement was applied to me instead.
- 61451054 - Non-DSA Appeal Request: 1428298066137583737.
- 61465755 - "How do you expect to have a Family Center on here when I can't even get a human to read and respond appropriately?" (sat open for 30+ days).
- 61691061 - Re: Non-DSA Appeal Request: 1428298066137583737.
- 61771050 / 61771054 - Discord Staff Retaliation & Knowingly Penalizing Harassment Victim - Legal Escalation Imminent.
- 61770202 - Non-DSA Appeal Request: 1435929663460347925.
- 61942766 - Re: Re: Non-DSA Appeal Request: 1428298066137583737 - my explicit self-harm follow-up that was closed as "Solved" within minutes with no reply.

There are also older support tickets in my exported Discord support JSON where the subjects have been overwritten as "SCRUBBED" but the content clearly relates to the same people (e.g. Links/Mason / other coordinated harassers).

2. What the harassment actually is

For roughly three years I have been the target of a competitor-driven harassment campaign that started on Discord and then spread to Facebook, Trustpilot and Reddit. It includes:

- False pedophile accusations and "kiddy fiddler" smears.
- Use of images of my minor children in those attacks.
- Doxxing and posting my home address.
- Suicide-baiting and "kill yourself" style comments.
- Mass-reporting and coordinated attempts to get my account and bot removed.

I am a developer and business owner. My product is a DayZ console bot called Legion Killfeed. The people doing this are competitors and their associates. They are using your platform as home base to coordinate it.

I have provided you with:

- IDs and links for the accounts involved.
- DM screenshots, recording files, JSON exports and PDFs.
- A full external archive at <https://they-wish-i.died.space/public> that exists "because- your in-app reporting tools cannot preserve deleted content.

3. How Discord has handled it so far

Despite repeatedly reporting this using your in-app flow and the Help Center:

- You applied a harassment/bullying strike to my account until 2027 for a single defensive "notice to cease" message sent to a block-evading harasser.
- The people who told me to kill myself and used my kids' images have remained active and, as far as I can see, unenforced.
- When I opened ticket 61465755 and explicitly asked how you expect to promote "Family Center" when I cannot even get a human to read my record, the ticket sat for more than a month with no meaningful response.

In ticket 61942766 (follow-up to 61691061) I reached the point of saying that after years of being told to kill myself I may as well "just do what these people have been telling me to do and just kill myself" and that I would record a video naming Discord, Meta, Trustpilot and Reddit for their failures. That was in the first paragraph of the ticket.

Your system shows:

- Status: Solved
- Closed within about three minutes
- No reply, no welfare check, no engagement with the underlying harassment at all.

That is not "support." That is closing a self-harm ticket without reading it.

A few days ago I was so desperate for an actual human response that I resorted to spamming you on Twitter/X with screenshots from these tickets. The reply I finally got there repeated the same line that you "can't" use screenshots, off-platform evidence or attachments, even though:

- You have already done exactly that in earlier 2022 tickets about Links/Mason, where staff thanked me for the evidence and encouraged me to keep sending IDs and message links.
- Those same people now appear in my current tickets as part of the coordinated harassment.

The net effect is that I am doing everything you asked me to do and still being treated as the problem.

4. Why refusing screenshots / off-platform evidence is not credible

Your current canned line is that you are "unable to use screenshots, bot logs, off-platform information, or attachments to verify content."

That is directly contradicted by:

1. Your past conduct - older tickets show your staff did rely on attachments and screenshots, and explicitly told me to keep sending them so you could investigate.

2. Your own data export README, which states that for Messages:

"manually-deleted messages are not stored in Discord and therefore won't be included in your Data package"

In other words, when abusers manually delete their messages, you hold no record of those messages in your logs or in my data export.

The only durable copy of that abuse is in the screenshots, recordings and off-platform archive I have already given you.

Saying you cannot use screenshots while also admitting that deleted messages are gone forever means:

- Harassers who delete their messages have free reign.
- Long-running campaigns like this become structurally impossible for you to evaluate honestly.
- Victims who actually document what is happening (like me) are told their documentation is invalid *because- it is the only copy left.

That is exactly what is happening in my case.

5. The personal impact

I am an adult and a business owner trying to keep my head above water while being called a pedophile, having my kids used in abuse, and being told to kill myself for years.

I have spent months compiling evidence, following your processes, and writing detailed tickets. In return I get:

- Canned messages telling me to re-submit the same appeal form I am already using.
- A self-harm ticket closed as "Solved" in minutes without anyone reading it.
- Repeated instructions to use in-app reporting that cannot possibly show you deleted content.

I am exhausted. I am trying to reach a real human reviewer before I completely run out of energy and give up. It already feels like the system would prefer I disappear rather than fix the abuse problem, and that is a horrific position for any platform to put a user in.

6. What I am asking for in this appeal

1. Merge and escalate

- Link and merge this appeal with Ticket IDs 58942905, 61451498, 61451749, 61451054, 61465755, 61691061, 61771050, 61771054, 61770202 and 61942766 and the earlier "SCRUBBED" tickets relating to Links/Mason and associates.
- Escalate to a senior Trust & Safety reviewer plus Legal/Billing, not front-line support.

2. Actual evidence review

- Review the DM threads, server context, block-evasion history and linked accounts for the named harassers.
- Review the attachments and off-platform evidence at <https://they-wish-i.died.space/public>, including the Facebook pedophile posts, use of my children's images, suicide-baiting and doxxing.
- Review your internal handling of ticket 61942766 and explain how a ticket containing an explicit self-harm statement was closed as "Solved" without any reply.

3. Correct the enforcement

- Remove the harassment/bullying strike(s) and any related account-standing flags that were applied to me for defensive responses in this context.
- Annotate my account as a targeted harassment victim so future reports are not turned into retaliation against the reporter.
- Apply enforcement to the actual harassers and block-evaders whose IDs and evidence I have repeatedly provided.

4. Written explanation and policy clarity

- Provide a written explanation of why enforcement was applied to me despite you already holding evidence of false accusations and suicide-baiting.
- Confirm, in writing, whether Trust & Safety is genuinely prohibited from using screenshots, bot logs, off-platform information or attachments in any case, and if not, why that line has been used to dismiss my evidence when older tickets show you have relied on exactly that kind of proof.
- Explain what changes Discord will make so that users in similar situations are not ignored when they finally say they may harm themselves.

Please do not respond to this with more routing advice or a generic "account standing" paragraph. I am following your process exactly as instructed. At this point, closing another ticket with a template response will only be further evidence for regulators that your current system cannot protect victims in a long-running, deletion-heavy harassment campaign.
