Hello Trust & Safety,

This is a further appeal and a formal complaint about the way Discord has handled both my harassment case and my recent explicit self-harm statement.

Core facts that need an actual human review

For roughly three years I have been the target of a competitor driven harassment campaign that started on Discord and then spread to Facebook, Trustpilot and Reddit. It includes false pedophile accusations, use of images of my minor children, doxxing, suicide baiting and mass reporting to damage my business and reputation.

I have reported this repeatedly through the in-app flow and via the tickets above, with full IDs and exhibits. Despite that, Discord placed a harassment/bullying strike on my account until 2027 for a single defensive “notice to cease” message sent to a block-evading harasser. The aggressors who told me to kill myself and used my kids’ images have not been properly dealt with.

On ticket 61465755 I explained this was my third appeal and asked how you expect to promote “Family Center” when I cannot even get a human to read the record. That ticket has sat open with no proper response for more than a month.

On ticket 61942766 – a follow up to 61691061 – I reached the point of saying that after years of being told to kill myself, I may as well “just do what these people are telling me to do and just kill myself” and that I would record a video naming Discord, Meta, Trustpilot and Reddit for their failures. That self-harm statement was in the first paragraph.

Your system shows that ticket as closed and “Solved” within roughly three minutes.

There was no reply, no welfare check, and no engagement with the underlying harassment issues.

In other words: Discord closed an explicit self-harm ticket as “Solved” without reading or responding.

I am an Australian user and business owner. You have been repeatedly put on notice that this is competitor abuse, that there are suicide encouragements, and that I am under serious ongoing distress caused by conduct on your platform. Closing tickets in minutes without reading them is not compatible with your public safety messaging, especially while you are advertising “Family Center”.

What you need to review in your own logs

Full DM history with the named harassers, including deleted messages.

Block history and re-contact showing that they are using new accounts to evade prior blocks.

Account linkages for the competitor group that has been slandering me and my business across multiple platforms.

Internal handling of all tickets listed above, including how **#61942766** was closed as “Solved” despite containing an explicit self-harm statement and attaching evidence.

Evidence locations

Prior appeal PDFs and screenshots already attached to the tickets listed above.

My consolidated archive at <https://they-wish-i.died.space/public>

The attached images and PDFs that show:

Suicide baiting and pedophile accusations.

Use of my children’s images.

Competitor-branded slander sites and Discord servers organising this behaviour.

Screenshots of the “Solved” status of **#61942766** immediately after my self-harm statement.

## Requested actions

Re-open and merge all tickets on this harassment case – including 58942905, 61451498, 61451749, 61451054, 61465755, 61691061, 61771050, 61771054, 61770202 and 61942766 – so one senior reviewer can see the full history rather than canned fragments.

Conduct a proper human review of:

The DM and server context.

The block evasion.

The cross platform coordination by named competitors.

The handling of ticket 61942766 in particular.

Remove all harassment/bullying strikes and account standing flags applied to my account in relation to these incidents. I am the reporting victim, not the aggressor.

Apply enforcement to the actual harassers and block evaders whose IDs and accounts I have provided repeatedly.

Provide a written explanation of:

Why the strike was applied to me despite the evidence of false accusations and suicide baiting.  
How a ticket containing an explicit self-harm statement was closed as “Solved” within minutes with no response.

What changes Discord will make so that other users in similar situations are not ignored when they finally say they may harm themselves.

Add a clear internal note on my account marking this as an ongoing targeted harassment case so future reports are not turned into retaliation against the reporter.

## Escalation

Please do not close this with routing advice or another generic “account standing” paragraph. You have had months of detailed documentation and have repeatedly failed to address it, culminating in closing a self-harm ticket as “Solved” without reading it.

If this is not given a proper senior review and corrected, I will be forwarding this record – including the ticket screenshots and your non-responses – to the Australian eSafety Commissioner, the ACCC and equivalent regulators in other regions as part of broader complaints about how major platforms handle serious online abuse and harassment.

Hello,

Thanks for writing in. It looks like you are trying to appeal an action the Discord Trust and Safety Team took against your account.

So that we can better assist you, we ask that you resubmit your request by going to <https://dis.gd/request>, and selecting 'Appeals & Age Update Requests' from the 'What can we help you with?' dropdown menu.

Sincerely,

Discord
