Scam details

When did you first encounter the scam? 1/11/2025

How would you best describe the scam? Threats to life, arrest or other

How were you contacted? Online

Which website or app were you using? Facebook messenger

Link to Facebook page: www[.]facebook[.]com/mathewtrojanowski

Your Facebook URL : www[.]facebook[.]com/LegionKillfeed

Briefly describe what happened : Please remove/disable aggropvp[.]com
and skynetvslegion[.]com
because they are being used as part of a coordinated harassment and impersonation campaign to damage my business and intimidate me and my family. The operator used fake profiles to contact me and then directed traffic to these domains. The sites published targeted abuse, directly targeted my fiance, and displayed private images including intimate images of me and images of my children (minors). This is non-consensual distribution of private material and creates immediate safety risk.

After complaints, aggropvp[.]com replaced the abusive content with a DMCA-looking “content removal” notice with a case number and “permanently removed” status. This is misleading and appears to be a fraudulent use of the DMCA process to conceal what was hosted while continuing the same targeting. skynetvslegion[.]com is a deceptive “comparison” site that impersonates an impartial review to steer users to a competitor and spread false claims. Together these domains function as a scam by misrepresenting purpose and legitimacy, laundering harassment through fake legal language, and driving continued targeting. Please preserve access logs, remove hosted media, block reuploads, and take action against related accounts.

Did the scammer pretend to be any of the following? None of the above

ABN or ACN provided by the scammer (if any) :
