

Response to Google Legal Removal Request

Matter: [1-3859000040385] • Legion Killfeed / Anthony Brodie • Australia

What this document does	It answers Google's request for exact text, explains why the material is complained of as defamatory under Australian law, and provides a firm formal notice that the material is disputed and has already been reported.
--------------------------------	---

Google's request, answered

Exact text or content: See Appendix A. The quoted material identifies the specific statements that accuse Legion Killfeed and its owner of hacking, file theft, data theft, malicious code, scam conduct, server sabotage, and related misconduct.

Why the content is complained of as unlawful: The material is complained of as defamatory because it states damaging factual allegations as facts, not as neutral opinion. The excerpts also include a competitor framing narrative and repeated publication over time.

Relevant law: Defamation Act 2005 (NSW), as part of Australia's uniform defamation framework.

Reddit removal procedure: The supplied Google email already confirms Google asked for confirmation that the Reddit removal procedure had been attempted.

Formal notice: Google and Reddit are on notice that the complained-of material is disputed, is alleged to be defamatory, and is relied on as repeated publication that has already been reported.

Key connections shown in the material

Connection	What the record shows
Competitor narrative	The thread contains a direct line about "competitor slander" and a separate recommendation to use dayz++ instead.
Repeated false factual claims	Multiple comments accuse Legion Killfeed of hacking, file theft, data theft, malicious code, server destruction, and scamming.
Repeated publication	The supplied material shows updates and reposted comments over months, not a single isolated remark.
Notice already given	The Google email supplied with the PDF shows the matter has already been escalated and Google is seeking further specificity.

Appendix A - exact text identified

The excerpts below are copied from the uploaded material and grouped by URL. One URL requested by Google is referenced in the supplied email without a legible excerpt in the extracted PDF text, so that item is noted separately at the end.

https://www.reddit.com/r/DayZDiscussions/comments/19e9o29/legion_kill_feed_whats_souls_issue	Has this happened to anyone else? Is he always such a douche? He didn't let me prove anything just accused me a bunch and I've never met the dude or had any other interactions yet he was adamant that because I was on aggro I must be some sort of hack or something I'm not sure. I'm just really confused and would like some alternatives to the kill feed I've seen a few but if anyone has any recommendations that are easier for first time users I'd be appreciative. UPDATE: Soul responded and made a fake account which he accused me of, to comment on this post 2 months later after a few others came forward about his behavior towards them. UPDATE #2: Soul has made multiple fake accounts now and is still commenting on this post 6 months later!! Don't press on any of the links or anything that he sends I've been informed he's a serious problem in the coding/DayZ community. If you have his bot get it out of your server now! Check any and all commenters post history as most of the accts backing him have just been made!	Original post and update
https://www.reddit.com/r/DayZDiscussions/comments/19e9o29/legion_kill_feed_whats_souls_issue/kteombn/	The guy is a total douche bag. He threatened to remove my bot because I didn't respond to him in his time frame as I didn't even see that he replied. I also had settings setup where I dont see anything except @. More dramatic than a fucking woman.	Personal abuse allegation
https://www.reddit.com/r/DayZDiscussions/comments/19e9o29/legion_kill_feed_whats_souls_issue/kwcjm4s/	Legion Killfeed is just around to collect and sell your files. He's done so in the past with other servers. Before the killfeed he deleted Greedys server files and also the servers of multiple servers he had FTP access to. These are not false claims this is JUST who Soul is. Look around he's got the scammer tag is many of the DayZ discords.	File theft / scam claim
https://www.reddit.com/r/DayZDiscussions/comments/19e9o29/legion_kill_feed_whats_souls_issue/kyv8inc/	Lmao bro you made a fake account to comment on a post from 2 months ago. Grow TF up, I've moved on and found a better bot and multiple people have said you're a hack. I don't need anything else from you, and I blocked for the same reason I'm gonna block you before you can see this. You are not worth it to argue with you're clearly delusional and have a real issue with people calling you out on your bs (hence make a fake 2 months later ■) I've even had people send private DMs confirming you did similar if not the same shit. Anyway you're just making yourself look worse, Maybe get therapy?	Fake account / credibility attack
https://www.reddit.com/r/DayZDiscussions/comments/19e9o29/legion_kill_feed_whats_souls_issue/kywtf93/	There's been hundreds of complaints in the community about legion Killfeed. The bot downloads custom files from customers and the owner Soul (the Killfeed maker) sells them for profit. Soul is a known Scammer is so many communities. Would never ever ever trust him to hold a token for any server!	Data misuse / scam claim
https://www.reddit.com/r/DayZDiscussions/comments/19e9o29/legion_kill_feed_whats_souls_issue/l5a15bj/	So many bad experiences with Legion killfeed. This bot should be watched and avoided at all cost it might look okay but the code has malicious intent. It removed and edited my files without my permission. It also adjusted servers settings was told "it's needed for the bot to work" Soul has screwed over other owners in the past and has a bad reputation with a lot of servers owners. DO YOUR RESEARCH BEFORE ADDING LEGION KILLFEED!!!	Malicious code / file editing claim
https://www.reddit.com/r/DayZDiscussions/comments/19e9o29/legion_kill_feed_whats_souls_issue/l5xli3/	Soul has done nothing for his killfeed and when asked about it I got banned with no money back on my subscription. He's just going and scamming people for their tokens and money I would highly recommend any other bot.	Refund / scam claim

URL	Exact text excerpt	Note
https://www.reddit.com/r/DayZDiscussions/comments/19e9o29/legion_kill_feed_whats_souls_issue/1nt64ot/	This is not the user you are questioning. The information was leaked along with a database dump. Soul is known to use FTP to destroy servers and wreak havoc on the DayZ community. The user is also more focused on drama than basic security needs, including SQL injection into the database, which has yet to be fixed. There are many people who provide clear evidence that this user is only interested in financial gain and personal gain of important information. This user is hijacking user files using a token to sell and distribute user files for financial gain. Check out the replies and feedback from other users listed in this thread.	FTP / SQL / file theft claim
https://www.reddit.com/r/DayZDiscussions/comments/19e9o29/comment/nreb800/	Holy moly guys, I had the worst experience with LegionKillfeed. That soul boy is such a clown. Unwilling to assist with anything. Threats ppl like garbage. You can definitely tell the lawsuits are getting the better of him. Do yourselves a massive favour and join dayz++ instead. Their services is just 110% better and actually worth your time, money and energy.	Competitor promotion
https://www.reddit.com/r/DayZDiscussions/comments/19e9o29/legion_kill_feed_whats_souls_issue/1nt7b2s/	If you're looking to get hacked and have your files stolen by Soul Lags, actually pay his fee and don't cry when it happens. Soul is committed to creating drama in the community. He doesn't care about you or anyone else; he only cares about his drama and will base his entire business around it. The man is more focused on drama than on working on his broken bots with poor security.	Hacking / file theft claim
https://www.reddit.com/r/DayZDiscussions/comments/19e9o29/legion_kill_feed_whats_souls_issue	It is not enough that the thread contains abuse. It also contains a direct competitor-framing line: "Seems like soul isnt lying about competitor slander, especially cuz he. refunded me instantly when i had a issue..." and a separate endorsement telling readers to "join dayz++ instead". Those statements are relevant because they show the publication is not isolated criticism, but part of a broader competitive narrative repeated inside the same thread.	Competitor-slander connection

Draft reply to Google

Hello Google Team,

Thank you for your email. In response to your request, the exact text complained of is identified in Appendix A. The material published on Reddit alleges, as statements of fact, that Legion Killfeed and its owner hack, steal files, sell customer files or data, use malicious code, destroy servers, abuse FTP access, and engage in scam conduct.

Those allegations are false. They are not presented as limited opinion or lawful criticism. They are framed as factual accusations and repeated in a way that materially damages the reputation and commercial standing of an identifiable Australian business and its owner.

The material also shows a broader competitor narrative, including a direct reference to "competitor slander" and a separate recommendation to use dayz++ instead. That context matters because it shows the publication is not a neutral review. It is part of a repeated and harmful smear campaign.

Please also note that Reddit has already been approached through its removal process, and Google has already been placed on notice through the removal request referenced in this correspondence. This document is provided so the record is clear, the exact statements are identified, and the complained-of material can be assessed without ambiguity.

This is formal notice that the complained-of statements are disputed and are complained of as defamatory publications under Australian law, including the Defamation Act 2005 (NSW). Continued publication, republication, or continued indexing after notice is relied upon and reserved for any further complaint or proceeding.

Please confirm receipt and proceed with the removal / delisting assessment on the basis of the text identified above.

Regards,

Anthony Brodie
