There is a lot of noise in the DayZ community about "1000x" servers.

Let's clear the air: **ProjectJackalope 1000x isn't a loot multiplier—it's a performance benchmark.**

While other communities flood the coast with "loot shacks" that crash your frames, we scale the experience through stability, integrity, and elite hardware.

We are a cross-platform ecosystem of **8 community servers** dedicated to the **Jackalope Mandate**: replacing toxic harassment with strategic dominance.

OUR SERVERS

PlayStation (1000x|PvE Focus)

Experience the ultimate survival trilogy. Our PlayStation servers are optimized for those who value community and long-term progression over "disposable" weekend wipes.

- **Sakhal:** Brave the newest frozen frontier.
- **Chernarus:** The classic home for high-performance survival.
- **Livonia:** Tactical PvE in the deep overgrowth.

Xbox (1000x|PvE Focus)

We bring professional moderation and adult-led environments to the Xbox community.

- **Chernarus & Livonia:** Smooth, lag-free PvE gameplay built on a hardware-first philosophy. Your fights with Ai are decided by skill, not frame drops.

To align with your **1000x Performance** branding while shifting the focus to high-stakes combat, here is the updated breakdown for your two PvP-focused servers. This keeps the language consistent with the **Jackalope Mandate** while emphasizing skill-based warfare.

THE PROJECTJACKALOPE PVP EXPANSION

The PvP Standard (1000x)

While our PvE servers offer a haven, our PvP servers are built for those who want to test the **Jackalope Mandate** in the heat of combat. We use the same "Performance Benchmark" loot tiering: no lag-inducing loot shacks, just high-tier tactical gear and elite server stability.

PlayStation PvP (1000x Performance)

Experience combat without the console stutter. Our PlayStation PvP environment is tuned for fast-paced engagements where your reflexes matter more than your internet connection.

- **Tactical Domination:** Optimized for squad-based warfare and strategic territory control.
- **Skill-Based Loot:** High-tier gear is earned through dominance, not found in piles on the coast.

Xbox PvP (1000x Performance)

The ultimate testing ground for the Xbox community. We provide the hardware-first infrastructure needed to ensure your long-range snipes and close-quarters breaches are frame-perfect.

- **Performance Over Quantity:** We've removed the "junk" loot that plagues other servers to give you the smoothest PvP experience on Xbox.
- **Professional Combat:** Moderated to ensure fair play, allowing you to focus on strategy and survival.

WHY PROJECTJACKALOPE PVP?

1. **Hardware-First Philosophy:** We ensure your fights are decided by skill, not frame drops.
2. **Strategic Dominance:** We encourage tactical gameplay over toxic griefing.
3. **Built to Last:** Even in our PvP zones, we prioritize long-term community progression over "disposable" weekend cycles.

ENTER THE WARZONE: [Discord.gg/projectjackalope](#)

PC (High-Stakes Tactical PVP)

Our PC server is a different beast entirely. Set on the stunning **PNW (Pacific Northwest) map**, we offer a heavily modded, tactical experience in a controlled loot economy.

- **Tactical Air Supremacy:** Fly custom Proplanes and Helicopters.
- **Elite Gear:** Featuring Fallout-inspired equipment and top-tier tactical mods.
- **High Stakes:** Every encounter matters. This is DayZ evolved.

THE JACKALOPE MANDATE

1. **Organizational Integrity:** Professional, unbiased moderation.
2. **Server Health:** Optimized files for the smoothest console and PC experience possible.
3. **Respect for the Player:** Your time is valued here. We build communities that last.

Stop playing on "disposable" servers. Invest your time in a community that's built to scale.

🔥 ****PROJECT JACKALOPE – 7+ YEARS STRONG**** 🔥

Survival isn't just a game.

It's a legacy.

For over ****7 YEARS****, ProjectJackalope has been holding it down as one of the ****longest-running DayZ console communities**** — and we're not slowing down.

We've had ****the same owner.**

The same vision.

The same grind.**

No resets of leadership. No disappearing admins. No fake hype. Just consistency and performance.

🔥 ****Why ProjectJackalope?**** 🔥

🎮 High-performance community servers built for smooth PvP & real survival

📦 Spawn kits for newcomers so you're not stuck punching zombies for 3 hours

💎 A tiered loot economy that actually makes sense

✂️ Balanced progression for experienced killers and fresh survivors

🔧 Active management and long-term stability you can trust

We didn't pop up last month.

We didn't rebrand three times.

We didn't swap owners after drama.

We've been here.

Grinding.

Building.

Outlasting.

🧠 Whether you're a seasoned PvP veteran or just stepping into Chernarus for the first time — ProjectJackalope gives you the tools to survive, compete, and dominate.

Seven years of consistency speaks louder than any server description ever could.

If you want stability.

If you want performance.

If you want a community that doesn't fold when things get hard...

****You already know where to spawn.****

wtf is a Un-Halloween sale? Should just run random % off sale when our wages are going down because we F'd our game up again.

How you gonna add more cheaters and kill your own revenue by adding pc players to console servers before making them console to console with PlayStation?

Thales the head dev working on DayZ doesn't even know what the file sets look like just the fucking pay checks.

Watch anything with him being asked about file sets and it's "uhhh uhhh uhhh" every statement that is a passive way of avoiding the topic.

AI Overview

Legion Killfeed is a popular, fast Discord bot for DayZ console servers (Xbox/PlayStation) offering real-time tracking, detailed combat logs (distance, weapon, health), and 150+ management commands. It costs around \$7 USD for premium features, though some users have reported reliability issues. +2

Key Features of Legion Killfeed:

- **Real-Time Tracking:** Provides nearly instant alerts for kills, deaths, and player activity.
- **Detailed Metrics:** Logs hit zones, weapon used, victim/killer health, and damage distances.
- **Server Management:** Includes over 150 commands for Discord and in-game server administration.
- **Customization:** Highly customizable for RP, PVE, and PVP-focused servers.
- **Easy Setup:** Offers a relatively straightforward installation for Nitrado-hosted servers. +3

Alternatives and Considerations:

- **MDZGA Killfeed:** Promoted as a high-performance, "hardware-first" alternative with detailed, low-latency tracking.
- **Reliability Warning:** While many rate it highly, some users on community forums have reported issues with uptime and billing, as seen in this [Facebook post](#).

Review of Legion Killfeed - DayZ Discord Bot

Toxic Developer Conduct

While the technical features of this killfeed might seem functional, the experience is severely undercut by the developer's unprofessional conduct. For a tool meant to help manage a community, the creator consistently exhibits the opposite of leadership.

I have personally experienced and witnessed ongoing harassment, slander, and a condescending attitude toward users in the DayZ community. Instead of providing professional support, the developer frequently talks down to customers and uses their platform to belittle others. In a community-driven game like DayZ, this level of toxicity from a service provider is a major liability for any server owner looking to maintain a healthy environment. I cannot recommend this service due to the creator's persistent negative behavior.

When shit birds push a hack on the game as a last feeble attempt to get some more money out of the community they create Admin Panel. 🙄

When community leaders like "MakeDayGreatAgain" make the next best thing in the DayZ community. It's not against Bohemia Terms of Service.

The Jackalope philosophy, often summarized as the "Jackalope Mandate," is a server management approach that prioritizes hardware performance, file cleanliness, and professional-grade organization over standard community modding practices. It was established by TheJackJackalope (founder of Project Jackalope and leader in the Make DayZ Great Again movement) as a direct challenge to what he describes as "bloated" and "toxic" unoptimized servers.

Core Tenets of the Mandate

- * **Hardware-First Philosophy:** The belief that skill—not frame drops—should decide encounters. This is achieved by scrubbing server files to remove RPT errors (engine logs indicating performance-heavy conflicts), aiming for stable 60 FPS even on high-population console servers.
- * **Server Health (Clean Code):** A rejection of "1000x" junk and unoptimized copy-pasted code that clutters maps and causes crashes. Proponents focus on "scaling" the experience through technical fluidity and file integrity.
- * **Organizational Integrity:** Professional, mature, and unbiased moderation aimed at creating a "zero-abuse" environment. This includes a zero-tolerance policy for drama-mongering, toxic grieving, and "admin-spawned" gear.
- * **Strategic Dominance:** Encouraging tactical gameplay where players must use their heads as much as their triggers. The philosophy favors long-term community progression over "disposable" weekend server cycles.

The "Make DayZ Great Again" (MDZGA) Movement

The philosophy is disseminated through the Make DayZ Great Again community, which offers:

- * **Free Coding Education:** Teaching owners to fix flawed server code and manage files without profit-driven motives.
- * **Transparency:** Highlighting flaws in popular pre-made mods and advocating for "Vanilla+" balance that respects player time without breaking immersion.
- * **Security Awareness:** Educating the community on protecting servers from malicious attacks and exploits. @everyone

So many bad experiences with Legion killfeed. This bot should be watched and avoided at all cost it might look okay but the code has malicious intent. It removed and edited my files without my permission. It also adjusted servers settings was told " it's needed for the bot to work"

Soul has screwed over other owners in the past and has a bad reputation with a lot of servers owners.

DO YOUR RESEARCH BEFORE ADDING LEGION KILLFEED!!!

Not sure if this is allowed on here or not, but I'm working on my server and ran into a snag when trying to set up the Legion Killfeed on my discord. If anyone has used this before or can point me in the direction of someone who can help me finish setting it up, that would be great.

Just get DayZ++ or the free version they have.. legit so easy to use.. just create a forum on appreciate and see if to send what ever info you want.. they have discord and answer questions as well. And you can have as many feeds and servers as you want linked.

They charge for multiple servers when ss9 has been running my seven servers since 2020 on the same monthly subscription no changes no need for more money up charging like I received over the years from the bots mentioned above.

Doing my own server for Xbox, Completely computer illiterate, until a month ago I hadn't owned or really used a PC/Laptop for 20+ years. Got my head around editor, getting my head around the xml side of things but how TF does discord work? 🤔🤔 I've linked my server to the discord, even tried to install a killfeed bot which was a waste of money because I basically got laughed at by some pr1ck called Saul who owns/runs the Legion Killfeed bot as i don't know how any of it works. Any help or guidance would be massively appreciated.

Serious Security and Trust Concerns

I'm leaving this review due to serious concerns about this bot and the individual behind it. There is a well-documented pattern of discussions across the DayZ and Discord communities regarding this tool being linked to exploitative behavior, including actions that have resulted in Discord servers being compromised or wiped.

In addition to the technical concerns, I've personally been subjected to ongoing harassment connected to this project, which shows a complete lack of professionalism and accountability. When a developer behaves this way, it raises major red flags about trusting them with administrative or bot-level access to a server.

Server owners should think very carefully before giving this tool any permissions. Trust, transparency, and respect for community safety are critical — and based on my experience, this product and its operator do not meet those standards.

Project Jackalope DayZ

Searching for community opinions on "Project Jackalope" outside of its official Facebook group primarily yields very negative feedback and complaints from the video game DayZ community. The search results indicate a history of poor server performance and hostile interactions with the administration and owner, leading to players being unfairly banned.

Key criticisms of Project Jackalope based on community feedback include:

- Toxic administration:** Several players allege that the owner, sometimes referred to as "Jack" or "Jackalope," and his administration team are immature, toxic, and unhelpful. They reportedly do not address player concerns and insult members of the community.
- Abuse of power and unfair bans:** Reports on Reddit describe administrators unfairly banning players for minor or unsubstantiated reasons. One user claims their faction was banned for asking a question and was mocked by an admin. Another Reddit user describes being banned after a new friend they met on the server was accused of cheating, and an admin was not receptive to a defense.
- Favoritism and raiding:** Multiple accounts suggest that the admins collude with or favor high-tier donors. One player alleges the server owner streamed himself raiding their base early into their time on the server, resulting in repeated harassment.
- Accepting donations without addressing concerns:** The administration is criticized for being more focused on accepting donations than on fixing bugs or addressing community feedback. Some players report paying for items to be spawned near their bases.
- Poor server performance:** A Facebook post from 2020 complains that the Project Jackalope server suffered from "wonky" loot and significant lag, making it unplayable.
- Hostile interactions with the owner:** A commenter on a December 2024 Facebook post suggested searching for the server's owner, described as "toxic," to see how the owner acts.

The opinions found stand in stark contrast to the positive posts found within Project Jackalope's own controlled Facebook groups, which often praise the servers and owner.

This bot is absolutely 10000% trash. You rent their bot, and they don't allow you to use the bots discord to promote your server unless you lay them even more money. The bots features are garbse as well. You are better of going and renting the Dayz++ bot for a lot less than what is charged by these guys.

That's funny, because it's been free for over a year, sounds like you're just promoting another bot and spitting all over mine without ever actually using it.

how dose the spawner work exactly, wondering as i have spawned a truck in and logged on but was not there, now i was reading about after 2 hours it dose something. does it delete the spawn or after 2 hours it will spawn?

Sorry didn't see this before, it's still an experimental command, open a ticket in discord for assistance :)

Discord had evidence of false pedophile accusations for 4 days before punishing the victim. This represents knowing misconduct, not just processing error. The platform is now actively enabling serious harassment. This creates liability beyond typical support complaints.

This is not a routine billing question. It is a breach-of-contract / Australian Consumer Law refund demand. Please link and merge this billing ticket with Trust & Safety tickets 61451498, 61451749, and 61465755 and escalate to Billing Compliance + Trust & Safety Management + Legal.

Refund scope I am demanding
Full refund of all Discord fees paid from 11 March 2021 to present, starting with Payment ID 905340670112317472 (PayPal), and including any subsequent renewals, boosts, and add-ons.

Statutory interest and fees.
Written confirmation that all related enforcement flags are removed and my account is annotated for targeted-harassment protection.

Why this is a breach (summary)

Discord has repeatedly failed to provide services with due care and skill and not fit for the stated purpose (safe, usable access with fair, context-aware enforcement).

I am the reporting victim of a competitor-driven harassment campaign that escalated to false pedophile accusations, suicide incitement, doxxing, and use of my children’s images.

25 Oct: Facebook post naming me as a pedophile.

4 Nov: Discord placed a harassment strike on me for defending against those accusations, even though Discord already held the Facebook evidence for 4+ days.

Result: paid features were restricted (DMs, friend requests, servers, uploads) and my business was harmed, while the harassers remained active. This is not the service I paid for since 11 Mar 2021.

What I require from Billing/Legal now
Backdated refund for all payments from 11 Mar 2021 → present to the original PayPal source.
Itemised ledger (CSV/PDF) of every payment on my account since 11 Mar 2021 (date, amount, product, transaction ID).
Strike/flag reversal and a written explanation of why enforcement was taken despite prior evidence that the accusations were false.
Safety annotation preventing reporter-retaliation in future moderation.
Enforcement review on the identified harassers (including Joel Walker and associates) with outcome notes.

 **Soul**

Why this action is incorrect

My linked message documents ongoing harassment against me and provides context and evidence. It is not abusive, threatening, or targeted harassment toward another user.

Moderation penalized the victim’s documentation rather than the slander itself, even though Discord had four days’ prior knowledge of the context before applying the action.

This continues a pattern where my account is restricted after I report the abuse, which discourages reporting and undermines trust in the process.

Continued ignorance of the case will result in legal action and this will reflect badly on discord, especially in Australia that is currently undergoing major law changes regarding online abuse.

The harassers' failures are evident – they have not produced any truth to back their claims – but the real failure has been on the part of the platforms to enforce their rules. This timeline shows how Soul repeatedly tried to resolve each incident: flagging, appealing, providing proof, contacting moderators and law enforcement. Each time, the attackers adapted and the platforms dragged their feet.

This guy attacks everyone on facebook using crap from discord and is one of the biggest misinformation spreading dogs. Right now he is editing past posts to call me a pedophile and he frequently does the same posts in discord, I just have not got an account in his discord because unlike the people you have enabled while attacking me, I don't block/ban evade.

Here's his IDs, plus months of proof

Yo yo yo, we're thinking of getting legion again but had a question! We kind of want to automate making base radars, we play the game as well and dont want people to thinkwe know exactly where their base is because we setup the base alarm... Is it still the same process that one of the admin guys needs to create the alarm and everything?

Hello Anthony. 🙄👊👊👊

Someone replied to you

YOU LYING PIECE OF SHITS TOLD ME "This is an automated message: an agent...

I understand that this is frustrating for you, however, I would kindly request you not to use profanity/

Anthony, from our end we have checked for all possibilities here, and I would like to let you know that to report a content or post the best is to report it through the link we have provided you.

Facebook user

Please know that we empathize with the challenges you're facing and are committed to providing assistance.

We can only resolve your issue by logging a formal problem report. Anthony, I understand that you have reported it multiple times, however, I would kindly suggest you to report it again from your end, and from my end I will I will also try leaving a note from my end requesting the team to manually review it on a priority basis.

Facebook user

You may kindly go through this link - <https://www.facebook.com/help/181495968648557>

I don't mean to rush you; however, the chat has been idle for the last couple of minutes, and I am wondering whether we are still connected.

Huh

Are you being a fucking idiot again

You do realise you've ignored the evidence entirely despite my repeated complaints that your stupid piece of shit link doesn't work.

Which means, Meta is liable

And I will be persuing this legally.

While you argue with me over forms, you refuse to remove a post calling me a pedophile.

You solicit my phone number

Then never call it.

You make me wait from 8pm until 5am in a chat, the never return

This demonstrates bad faith

So if I swear, get the fuck over it

Now do your job or get a supervisor.

Facebook user

Anthony, I totally understand your concern and your frustration here, however, please try to understand, from our end we have checked for every possibilities for your concerns and issues. And I understand that you have reported the content multiple times however, I am kindly requesting you to report it again, and from my end I will also try leaving a note from my end requesting the team to manually review it on a priority basis.

I can totally understand your frustration here, however, I would kindly...

I kindly request you stop facilitating a crime

You know it is a defamatory post

You refuse to act because I don't click your buttons you want, but I don't do that because it doesn't work.

I have shown you proof of this.

And you go "bugger, try again"

And now for 4 days Meta has known about this, lied repetitively to me and left the defamatory content online.

So go get your supervisor right nowm

@Adi

Get your supervisor

@Adi get your supervisor before I get my lawyer

Now.

I don't care what you are typing.

Unless it is that you've removed the post or your supervisor is coming, don't type. Do as your told

Facebook user

Anthony, I completely understand your emotions here, however, the same details will be given by the supervisor.

@Adi if your supervisor doesn't hurry up, I will call the police to the named addressee registered to the ABN holder and I will have them arrest your Australian representative for facilitating a crime.

Facebook user

If you want you can go ahead and report the content from your end and let Meta decide if it should be taken down or not .

Are you seriously this dumb.

Facebook user

I am sorry , we do not have a manual option from our end to remove a post .

Look at the attached files you morons.

Someone replied to you

Are you seriously this dumb.

This is a personal comment , I would like to keep this chat professional here.

I don't care about your feelings, you are a criminal

Someone replied to you

Look at the attached files you morons.

Please report the post , it is your right to do so .

Stop being a criminal and I might actually treat you with respect

Facebook user

Meta will work according to it norms , which are common for all .

Now get your supervisor

Facebook user

Since we have discussed the same issue multiple times and I have given you the same details from my end . I will go ahead and pass this case to the supervisor . If there is anything else apart from this that you need to discuss let me know or else I will wrap up the chat .

Get your supervisor

I am demanding a support member with brain cells.

Get me one

Now

You fucking piece of shit

Fucking criminal scum

I'll kill myself

I'll kill myself and name you in the suicide note cunt. Fuck you.

Get your supervisor

I'll do it if this chat ends before the post is removed. I'm done with this shit

If you end this chat, I will really do it. I have spent 4 days trying to get through to you fucking cunts so either get the post down, or get off your fat ass and get a supervisor with a brain cell.

Hurry the fuck up. You don't waste time in suicide situation dickhead.

Someone replied to you

You fucking piece of shit

As I already provided you with the information from my end, and as you keep using profanity, from my end, I will keep this as a professional way, and I will be ending our conversation here. I certainly want to provide you with the best assistance; however, we have protocols and norms to be followed, and unfortunately, due to that, I will be closing this case.

You may create or initiate a new chat whenever you want.

With that I am also providing you with a help center article and links you may kindly go through:

You may also report the post or content through this link - <https://www.facebook.com/help/contact/485974059259751>

Report content on Facebook - <https://www.facebook.com/help/181495968648557>

To summarize our chat conversation that we have had, you contacted us a you wanted to report and remove a content and post, and from my end I have checked this further and provided you with the information that you would be able to report the post or content from your end as from our end we don't have the manual options to remove any post or content, as Facebook is a global platform and it treats all advertisers and users equally. Once you have reported it Meta will review and decide whether to remove the post or not as per the protocols and norms.

This case will now be closed. If you still have questions, you can contact us again at <https://www.facebook.com/business/help>

Thank you for contacting the Meta Pro Team.

The way this has been handled has been absolutely disgusting, This is going to be reported to the ACCC, eSafety Commission and I will be looking into all legal avenues. Your oversights board system is entirely prejudice to the point it doesn't work.

I do understand the urgency to get this resolved. However, our team reviews all the reports very seriously.I understand that it is taking longer, however, our team manually reviews every appeal. Due to this, sometime it takes longer and it also depends on the complexity of the issue.

If that was true, this post would have been taken down when it was reported, as would the Daniel Santos one and the nathan putzier one.

You have already provided all the necessary details. We just need to investigate more on the details as we need to follow the policy and protocol.

So what do Adi do from 8pm AEST to 5am AEST on the 2nd of November 2025? Because that is what he claimed to be doing?

Facebook user

The general timeline is same but sometimes in manual reviews it takes more time. Rest assured, we are already working on this. I will try to expedite the process while adding relevant notes on your case.

Umm mate, did you even look at anything I've provided?

7:57PM Anthony: Okay, just do whatever you've gotta do, I'll chill here until you're done, it's cool, as long as it actually gets taken seriously. Trustpilot made the mistake of playing around, I hope meta understands I am serious. This is the third time I've had a post like this posted about me and I have reported that many times just for your useless ai to reject valid reasons. (illegal btw, each rejection counts as republication after notice)

7:29PM Adi: Hello Anthony, my sincere apologies for the delay here. I truly respect and value your patience and time that you have provided me here, I understand that this has taken so much of your time as well. I have deeply investigated this further from my end for you and from our end we are unable to directly take actions on this, so we require a report from your end again. I understand that this is frustrating however, kindly fill in this form for legal removal request: <https://www.facebook.com/help/contact/1219148701968527>. Kindly fill in all the required information and further actions would be done. You may attach this link for the policy – Community standards Since I am not getting a response back from you, I will pause this chat and wait for your response. Thank you for your understanding.

no they have not

While I recognize it may not be the outcome you had hoped for, I assure you that we've done our best with the available resources.

liar

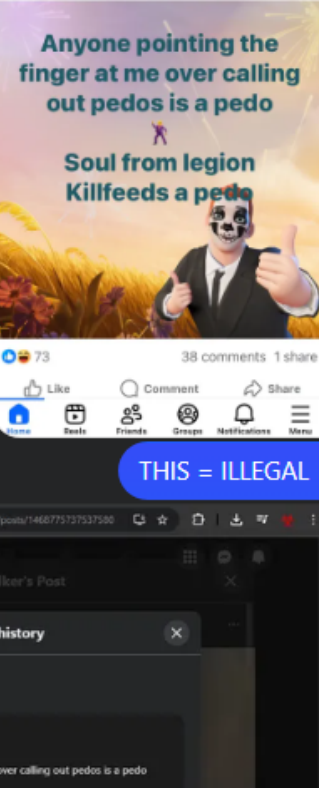

Don't lie to me mate, it just pisses me off more. It's not rocket science for an AI to identify when someone is spreading libel (that you are liable for), especially on an edited post.

Facebook user

I understand that it is taking longer, however, our team manually reviews every appeal. Due to this, sometime it takes longer and it also depends on the complexity of the issue.

What is so complex about it?

I will call you in 15 minutes to resolve the issue experienced with a screen sharing session

I don't understand, you are going to call me to what? Get you to explain how to report a post? look at those screenshots, I know how to, meta doesn't treat this as "against the guidelines" so (for example only) Meta is telling me, I can post calling you and everyone else I don't like a pedophile because it doesn't violate guidelines?

No worries, I will proceed over the phone as it will be easier to do the troubleshooting.

This violates Meta's Bullying and Harassment policy for private individuals because it:

- Targets a named private person and a small business to provoke abuse and pile on.
- Alleges criminal and sexual misconduct with no basis, a classic shaming tactic.
- Coordinates harassment across commenters, encouraging further abuse off platform.

The harm is real world and measurable. Following this post and its amplification, my business experienced a documented revenue drop of roughly 77 percent over month and a surge in fraudulent chargebacks that were temporally linked to the same coordinated organizing in the comments.

This coordinated campaign forms part of a pending lawsuit against Trustpilot for republication after notice and facilitation of harassment. Because repeated Facebook reports failed to stop the abuse or limit recirculation, Meta may be added to that action.

Lisa

I will call you in 15 minutes.

Please share with us your contact number.

Please refrain from using vulgar words, Anthony.

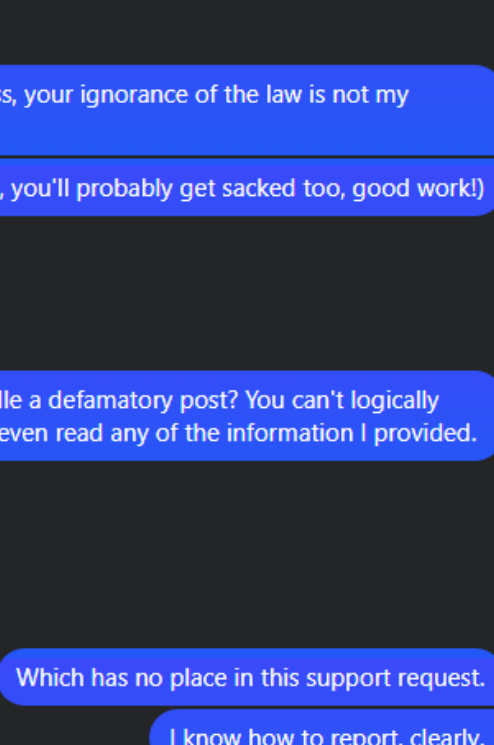

We would not be able to proceed with your request if this is how you are communicating.

Or else what? You refuse to address a vulgar post but get offended by my anger that you allow cunts to call me a pedophile? You are a fuckwit

I will not communicate with you any further, you have everything you need and your refusal to remove the post is on the record and will be shown to the eSafety Commissioner as well as the ACCC will be contacted with proof you tried to illegally access my computer when we were asked to look at a defamatory post.

If you wish to contact our legal department, please direct all communications to Meta Platforms, Inc., Attn: Legal Department, 1 Meta Way, Menlo Park, CA 94025, United States of America

Fuck you retarded US bullshit, Australian Law = Australian point of contact, our laws actually protect us from this level of illegal behaviour.

Australia has some of the harshest penalties for platforms that allow business defamation, so tell Zuckerberg I look forward to him paying for my new house. Cockheads.

Lisa

Thank you for contacting us. We are unable to comply with your request. This is a reporting channel that does not accept legal process. If you need assistance in relation to an extrajudicial notice and/or ongoing judicial matter(s), please contact us through the legal means available.

I did everything through the legal process, your ignorance of the law is not my problem

(It will be Zuckerburgs though, you'll probably get sacked too, good work!)

Lisa

I'm just here doing my best to help you; however, you did not give me the chance to assist you.

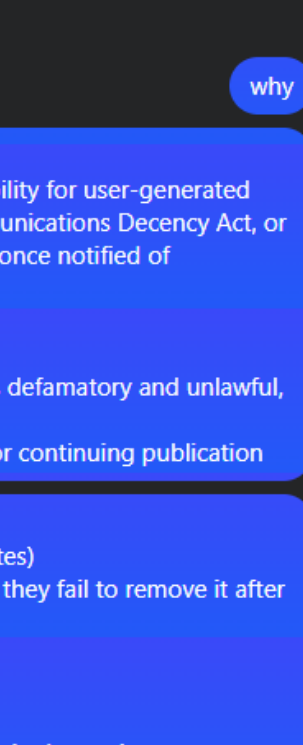

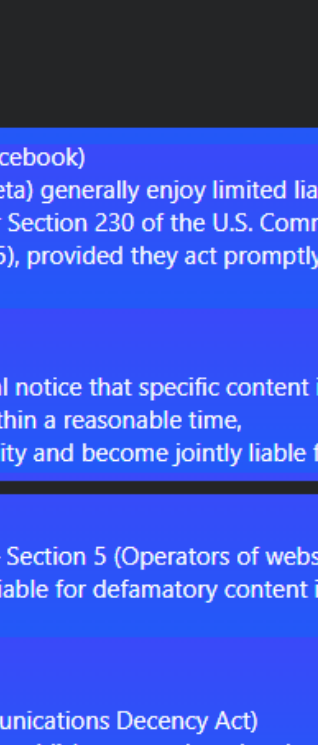

You tried to access my computer to handle a defamatory post? You can't logically argue you tried to help when you didn't even read any of the information I provided.

Lisa

The purpose of screen sharing is to show and collaborate on your device's screen with others in real-time, enhancing communication and productivity during remote meetings

Which has no place in this support request

I know how to report, clearly.

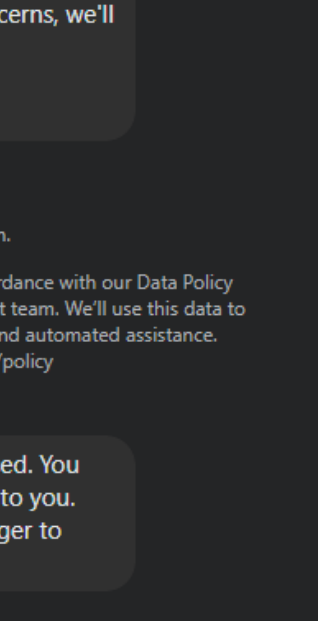

Lisa replied to you

I know how to report, clearly.

Great, do you still need any other assistance further.

You need to remove this post. Which is what I said at the start. it is not my post.

You sent 4 photos

So as it is not my post, it is illegal, it is defamatory, so how do you justify trying to access my computer to address that?

Lisa

You cannot remove other people's posts directly, but you can remove a tag from a post you're tagged in, or report the post if it violates the platform's rule and you can also report the said post for review.

How do you refuse to look at this PDF that in depth explains how the whole facebook group before the post is, is used for nothing but defamatory content?

2025-11-05-meta-facebook-complaint.pdf 14.26 MB

You replied to Lisa

You should not be working with english people if you cannot read english words.

Thank you, Anthony, I'm just doing my best to assist you.

Lisa

Unfortunately, I was unable to transfer the said chat.

Platform Liability (Meta / Facebook)

Platforms like Facebook (Meta) generally enjoy limited liability for user-generated content (for example, under Section 230 of the U.S. Communications Decency Act, or UK Defamation Act 2013, s.5), provided they act promptly once notified of defamatory content.

That means:
Once Meta receives a formal notice that specific content is defamatory and unlawful, If Meta fails to remove it within a reasonable time.
- Meta may lose its immunity and become jointly liable for continuing publication

UK / Commonwealth

Defamation Act 2013 (UK) - Section 5 (Operators of websites)
Website operators may be liable for defamatory content if they fail to remove it after notice.

United States

47 U.S.C. § 230(c)(1) (Communications Decency Act)
Platforms are not treated as publishers — unless they knowingly continue publication after notice in certain defamation contexts.

Australia

Defamation Act 2005 (Uniform Law)
Continued publication after notice can be treated as a new publication, restarting the limitation period.

May I know on your concern, Anthony?

There is a post calling me and my business a pedophile, I have been fighting with you guys to have it removed for 4 days.

I told the last support representative if he ended the chat I would kill myself.

He immediately gave his narrative version of the events, ignore the truth of the last 4 days and ended the chat.

That is so far beyond messed up, I really do want to kill myself just to put him in jail after he has tormented me for 4 days with his lies.

If you use Legion Killfeed at anytime dude will reset loop your server and force your players to leave your community. Soul literally bragged about it to me for months about how he forces other communities to die.

I've not interested in working with someone who willingly sends me videos of DayZ (stupid) showing my code they stole when they were staff.
I've only been looking for someone who wanted the job right. Just like the one who said they were looking for a person who got in my head about it and changed the topic plenty of times.
I can't trust you and nobody should.

aSoul · 1h ·
You sent me shit. Kept pushing the topic. Then ran back to him. Then the day a clone of DayZ Multi Tool launches, you launch your bot that requires the bot owned by the guy who stole my code. If you think was gonna happen? You lied and denied I even helped you for fucks sake.

UntoldTruthy · Today at 3:09 PM ·
I have no association with Skynet. Yes I made the Alt Detector bot, skynet was an optional feature, until I do my own alt detection, Kami is apart of day2boosters discord, just like you both are apart of discords together to. Hes just there. I never ran back to him.

aSoul · Today at 3:09 PM ·
All you toxic assholes grouping up to do his bidding is ridiculous. Especially you & Josie, you both know the truth and you choose to side with a pedophile thief and come after me.

UntoldTruthy · Today at 3:09 PM ·
You sent me all that stuff yes, im not gonna deny that.. but I never looked at any of it

aSoul · Today at 3:10 PM ·

It's been a long time, and I know there was some petty drama between us back then. I just wanted to reach out and apologise for any part I played in it, no hard feelings at all. I'm actually moving on from the DayZ scene and selling D2B soon, and before I do, I wanted to make amends with a few people and clear the air.

No expectations here, I just wanted to leave things on good terms with those I don't have them with.

I have had a highly disappointing...
I have had a highly disappointing experience with the owner of this killfeed service. He frequently engages in unnecessary drama and seems more focused on stirring conflict than running his business professionally. Unfortunately, his attitude reflects an underlying jealousy toward other DayZ community members and businesses that are performing better than his.
Moreover, there are concerning issues with manipulation tactics and the handling of unencrypted information through his bot, which raises serious privacy and security concerns. When faced with criticism or unfavorable situations, he responds by persistently complaining and deflecting blame rather than addressing the problems constructively.
If you are considering becoming a client of this killfeed, I strongly advise seeking alternative options. The service itself appears amateurish, with a website that looks hastily put together. If you value a smooth gaming experience without unnecessary drama or complications, it's best to steer clear of this killfeed.
In my opinion, Legion Killfeed's presence within the DayZ community is more harmful than beneficial.

Hello Del, Thanks for messaging us! Our hours of operation are Monday-Friday 8am-5pm and Saturday 8am-12pm EST. If this message is sent within our business hours, an agent will reply to you shortly. For faster service, please call +1 757-742-6231

I am writing to you today under deeply unfortunate circumstances concerning your son, Edward Anthony Griggs Jr. For the last three years, he has been engaged in a sustained campaign of online harassment and abuse targeting me. This has recently escalated to a dangerous and unacceptable level.

His actions include explicitly encouraging me to commit suicide and publishing malicious, false accusations against my character, including baselessly labeling me a "pedophile." As a parent myself, I find this behavior not only revolting but profoundly disturbing.

I am in the process of pursuing legal action. I am only writing to you directly on the chance that, as a parent, you would want to know if your child was engaging in such harmful conduct. If my son were behaving in such a manner (being a piece of shit, like yours is) I would want to know.

I do not know if this stems from a psychological issue or a deeply malicious character, but his actions are those of an individual who is severely unwell or deranged.

I expect your son to cease all harassment immediately, retract all defamatory statements, remove the posts, and issue a public apology.

His actions are not conducted in a vacuum; he is invoking your family name and, by extension, your business. The reputational harm that follows will be a direct consequence of his choices. I urge you to intervene.

Sun 9:11 PM

Hello,

Your message has been received and reviewed. To clarify, the individual you are referring to is an adult and acts independently. We do not have involvement in, nor do we condone, any personal online disputes or communications he may engage in on his own time. Our business is not a party to your situation.

We ask that you refrain from contacting or involving our business in this matter moving forward. Continued attempts to engage us, threaten our reputation, or send harassing communications will leave us no choice but to refer the matter to our legal counsel to protect our business and its interests.

If you are pursuing legal action, please have your attorney direct any formal correspondence to ours. We will respond appropriately through proper legal channels.

Thank you,
Griggs Lawn and Tractor LLC

Bring it bitch, let your shitty lawyers come after an Australian Business because your son wanted to deter it's customers, what kind of man are you.

Sent

My name is Anthony Brodie. I am the owner of Legion Killfeed (ABN 28 387 377 607), an Australian business.

I wrote to you formally to notify you of a sustained, three-year campaign of online harassment and defamation conducted by your son, Edward Anthony Griggs Jr., directed at me and my business.

That campaign includes, but is not limited to:

- Explicitly encouraging me to commit suicide.
- Falsely and maliciously labeling me a "pedophile."
- A grown man saving images of my at the time three year old daughter and six year old son

I maintain comprehensive, archived evidence that unequivocally links this activity to Edward Anthony Griggs Jr., including timestamps, account handles, and post contents.

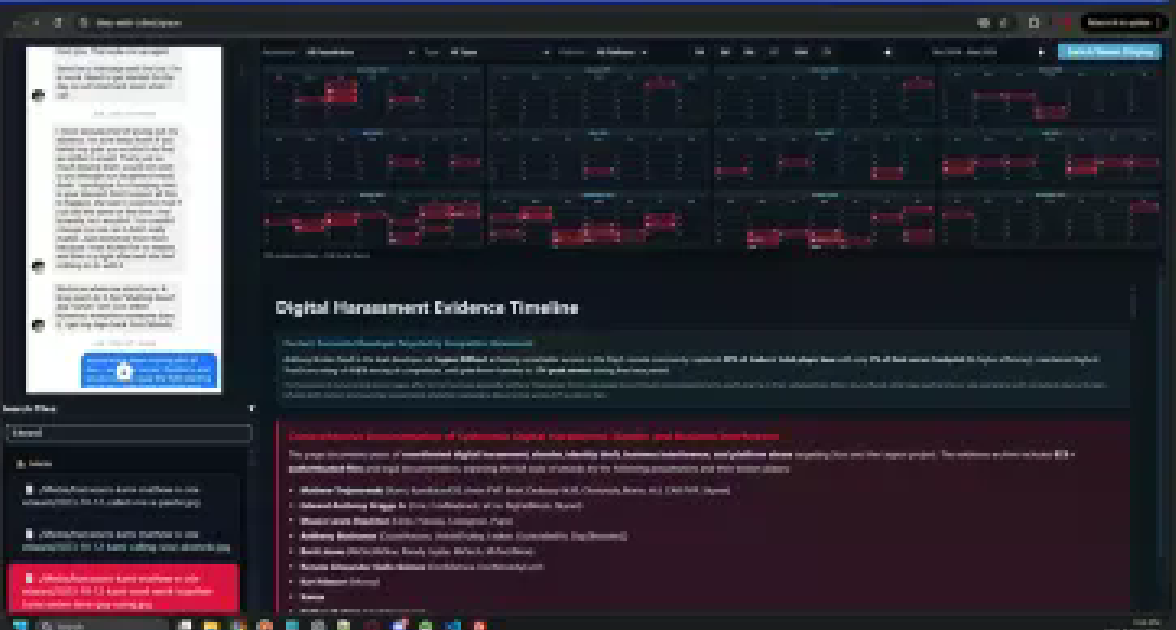

I intend to pursue all available legal avenues against Edward Anthony Griggs Jr for defamation and harassment. Because his actions have deliberately involved your business's name, this may necessarily involve discovery and proceedings that examine his connections to Griggs Lawn and Tractor LLC. This is a formal notice prior to escalation. Any future abuse or retaliation in response to this notice will be documented and will be treated as relevant to assessing your business's involvement.

For completeness, I also note that evidence shows coordination and encouragement by Mathew Trojanowski. I strongly urge you to instruct Edward not to engage with or be influenced by third parties in ways that further this conduct. I trust you will appreciate the seriousness with which I am treating these malicious and damaging actions.

Regards,
Anthony Brodie
Owner, Legion Killfeed

Everyone else has mental blocks about this [Discord.gg/projectjackalope](#)

TheDarkHawk777 7:05 AM

Wow, Thank you, but sorry for the silly hahaha, in every house are those loots like this or is it in specific coordinates?

!PapaTolanka DAYZ DEVELOPER DayZ 097 7:13 AM

Whole map it has chance to spawn those items in those buildings

Most servers do not code they place items on editor that do not function how loot spawns should function

These servers spawn loot with the mechanics the game uses to spawn loot unless a shack I placed

Community leaders still can't code. 95% of communities have horrible RPT errors. They shame others when they have lied since the start of there servers. I exposed these people at the cost of my community being grieved by the minute by thousands of trolls. 🤖 Server owners and players for the last two years have first hand witnessed or experienced trolling of my community or long time players over the last six years know of the constant griefing and trolling of ProjectLackalope because of its high standing in the community and the spitefully blatant slander from the server owners ex girlfriend in the community. Simp community leaders looking for attention from a women has caused these people to become what they are now.

These people use minors and weak minded individuals to spread panic and horrific shock drama to destroy DayZ communities. Be mindful that MakeDayZGreatAgain sees what they have made and even at the expense of my servers population I'll still be here supporting the community I have created and banned these people from being a part of. I will keep my community members and myself safe and always ban these trolls. I will remain to MakeDayZGreatAgain.

OFFICIAL STATEMENT FROM PROJECTJACKALOPE & MAKEDAYZGREATAGAIN

In recent months, it has become increasingly clear that many so-called “community leaders” within the DayZ space lack the technical understanding and leadership maturity necessary to run stable, honest communities. A majority of servers suffer from critical RPT errors and poor coding practices—issues often dismissed or hidden while their owners publicly criticize others.

When I chose to expose this ongoing dishonesty, it came at a steep cost. My community, **ProjectJackalope**, has faced relentless grieving, trolling, and slander campaigns—often coordinated by those threatened by our success and standing. Over the last six years, long-time players and fellow server owners have witnessed these efforts firsthand.

Much of the recent harassment stems from individuals driven by personal grudges and attention-seeking behavior. Certain leaders have encouraged drama, manipulated impressionable players, and even involved minors to create chaos and destroy what others have built in good faith.

Through all of it, **MakeDayZGreatAgain** remains dedicated to the values that built this community in the first place: honesty, creativity, and respect. I will continue to protect our players, enforce fair bans, and maintain a safe space for those who share our mission of authentic survival gameplay and strong community values.

Our reputation wasn’t built overnight—and it won’t be destroyed by noise or lies. We will continue to grow, adapt, and most importantly—**Make DayZ Great Again**.

My Peace on ProjectJackalope

Joel Walker is a dedicated owner with a strong passion for supporting the DayZ community by offering guidance and resources that others might not, all at no cost. Every aspect of the servers is meticulously fine-tuned for optimal performance, ensuring that gameplay remains smooth and immersive, with no absurd loot placements or issues like tree-related lag that disrupt the experience.

Having played on the Xbox 1000x server since 2021, I have yet to find another server that matches the quality and dedication of Project Jackalope.

It feels like home, and I am confident it will remain so for as long as he continues to devote his time and effort to supporting the community.... [See more](#)

My last post on the matter.
Josie Garfunkle aka Michael has Slandered his way to YouTube fame by stealing other peoples work and slandering them to his community and says it is his work. Since 2020 and from even myself this con artist has fooled the DayZ community into thinking the things he has he made himself. Anyone can position some weapons on editor or edit a code that the game has given us to learn how to do. We teach people everyday to be better than these people in the community. Stand up to the ones that make this game so toxic. Stand for change. But don't stand with a lying snake thief. MakeDayZGreatAgain

So you use DayZ Editor to build custom areas/buildings/loot etc.
Once you finished the build, you upload it to your servers files.
May be different for PC but we personally are console and upload everything to our files from the host Nitradio.
When you save the build in editor, console normally exports to JSON and adds the build to the /custom folder

Soul has done nothing for his killfeed and when asked about it I got banned with no money back on my subscription. He's just going and scamming people for their tokens and money I would highly recommend any other bot.

So many bad experiences with Legion killfeed. This bot should be watched and avoided at all cost it might look okay but the code has malicious intent. It removed and edited my files without my permission. It also adjusted servers settings was told " it's needed for the bot to work"

Soul has screwed over other owners in the past and has a bad reputation with a lot of servers owners.

DO YOUR RESEARCH BEFORE ADDING LEGION KILLFEED!!!

@I'm_Obviously_Mario this is the only channel you can message in.

What's ya issue with me?

I'm_Obviously_Mario Today at 2:17 PM

nothing can you just please help me i know nothing about discord servers and setting up the server with the killfeed im trying to learn i thought i had everything set up yesterday but i deleted a channel and my how killfeed went away it said please give feedback but thats not what i was wanting to do. my token is bahbahblacksheep and it worked yesterday but now it keeps saying invalid

aSoul BOT Today at 2:17 PM

You had the bot working properly yesterday so don't lie. We can't get your service ID without a token. BahBahBlackSheep is not a token. (edited)

Legion Killfeed BOT Yesterday at 6:02 PM

yes I know, but it worked yesterday so what am I doing wrong is it because the token that worked and that i used yesterday was bahbahblacksheep I made the token so do i need to make a new api token?

does the server need to be completley set up before adding the killfeed?

the dayz server is running and i had a few people join but i was setting up the discord before I do anything legit

I'm_Obviously_Mario Today at 2:29 PM

why are you being so mean? I joined because i had to what the fuck dude im just trying to set up a fucking server with my fucking mom

 **I'm Obviously Mario** Today at 2:21 PM

yes i bought my server last night

im confused is there an issue with just making the server, Ive had discord itself for years

 **aSoul BOT** Today at 2:23 PM

And only added my bots specifically . No normal moderation bots, for someone with a discord older than mine (as you said) you're red hot mate. It costs \$7 for a an aged account.

Quite abusing too aren't ya?

You know where you fucked up?

 **I'm Obviously Mario** Today at 2:26 PM

okay im not sure why theres such an issue, like ive said serveal times i dont know what im doing and i dont understand why I have to prove myself to you. like I said I havent never had my own server, every other dayz server has this killfeed and i didnt even know anyone would see what i was trying to do. i didnt know i had to pay for anything as my server isnt crazy just added loot animals and zombies (edited)

 **aSoul BOT** Today at 2:27 PM

You're in Aggro and have been in there for years, you know who I am if you're in my server.

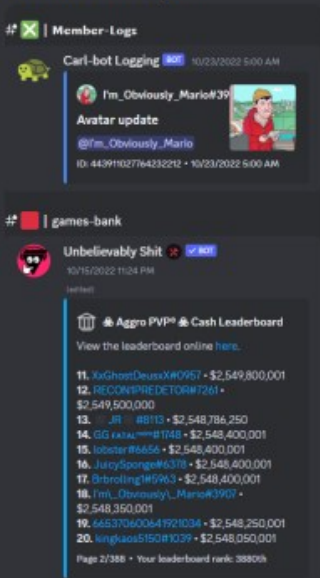

Oopsy shoulda left first hey?

 **I'm Obviously Mario** Today at 2:27 PM

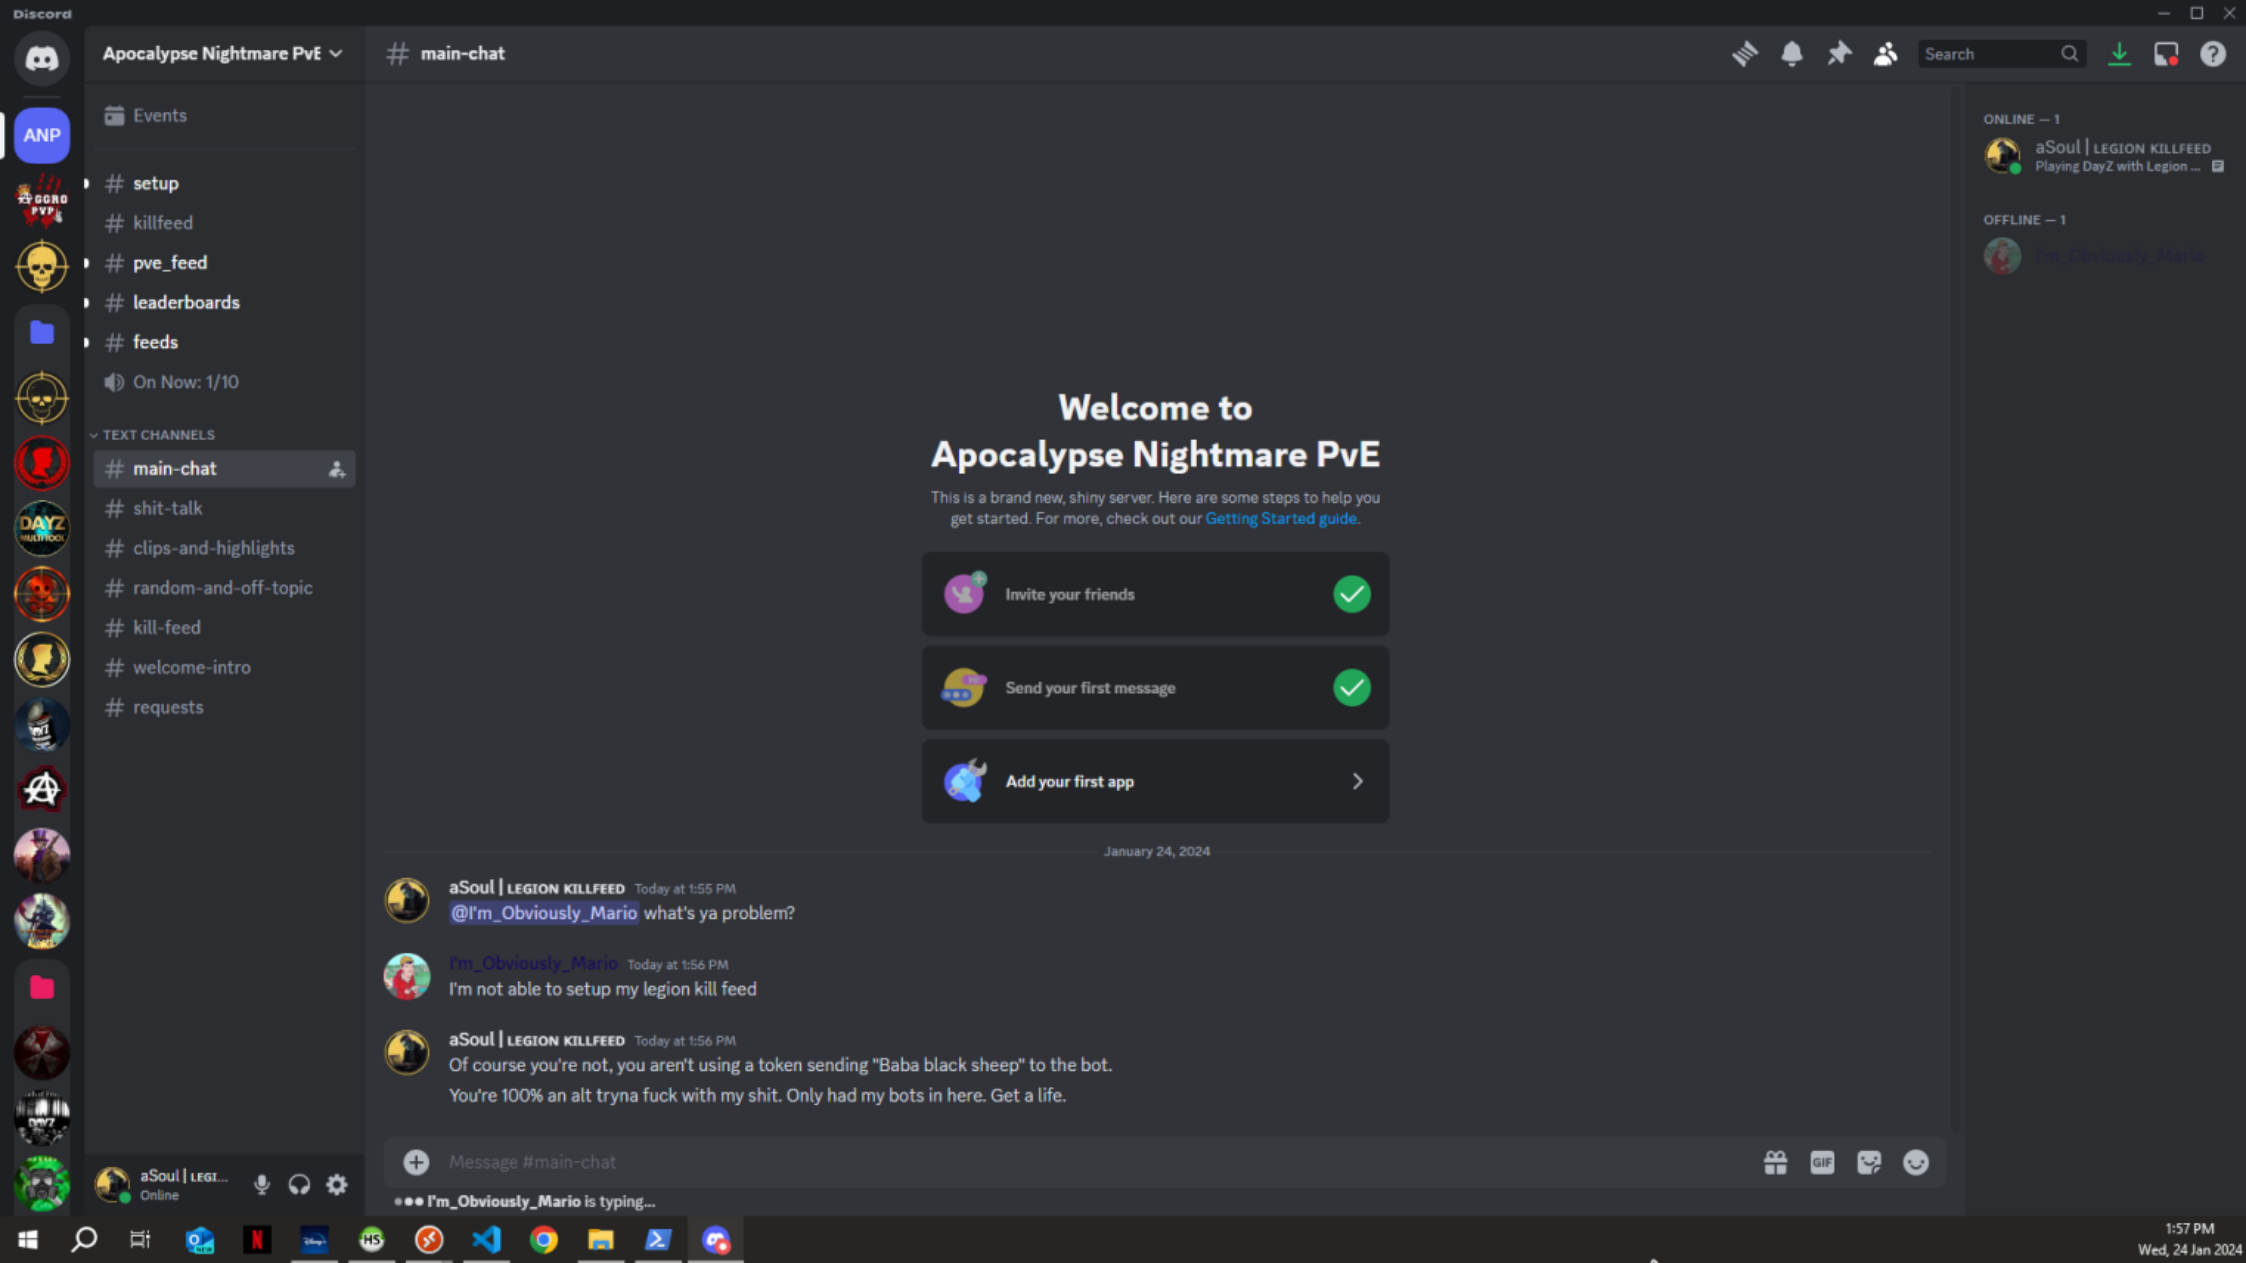

i just joined this killfeedf server

I wonder why Soul has a reason to be paranoid?
Could it be that Patriot from `DayZKillfeed.com` is using the bot and recruiting the other people using it while DayZ++ is in my DMs bringing up the last time `DayZKillfeed.com` was cloning one of my bots whilst at the same time, DayZ++ is ripping of features from it

↓ If you're looking to get hacked and have your files stolen by Soul Lags, actually pay his fee and don't cry when it happens. Soul is committed to creating drama in the community. He doesn't care about you or anyone else; he only cares about his drama and will base his entire business around it. The man is more focused on drama than on working on his broken bots with poor security.

↓ This is not the user you are questioning. The information was leaked along with a database dump. Soul is known to use FTP to destroy servers and wreak havoc on the DayZ community. The user is also more focused on drama than basic security needs, including SQL injection into the database, which has yet to be fixed. There are many people who provide clear evidence that this user is only interested in financial gain and personal gain of important information. This user is hijacking user files using a token to sell and distribute user files for financial gain. Check out the replies and feedback from other users listed in this thread.
