Hi,

Thank you for reaching out and sharing these details with us.

Please be advised that we investigate all reported content on a case-by-case basis according to the specific reasons selected when the review was flagged. In this instance, the review was reported for defamation; however, after carefully analyzing the content, we can confirm that it does not violate our defamation policy. For future reference, if you find other reviews that violate our guidelines, we kindly encourage you to flag them under the most appropriate reporting category.

We completely understand how frustrating it can be when you disagree with a reviewer's description of events, and we would like to explain our approach to these situations. Trustpilot allows anyone who has had a genuine experience to leave a review. While we understand that perspectives can differ, we are not in a position to determine the factual accuracy of a review. For this reason, we maintain a strictly neutral stance in factual disagreements between businesses and reviewers.

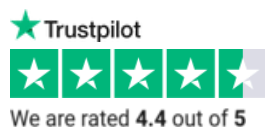

Should you require a further investigation or wish to provide additional context, please reach out to us directly via our official [Contact us" form](#).

We truly appreciate your understanding and cooperation in this matter.

Kind regards,

Thanks,

Please note that depending on the situation, we may use automated detection technology, a team of experts, or a combination of both to assess content on the Trustpilot platform.

Trustpilot trades on the London Stock Exchange under the ticker **TRST**
