Legion Kill feed, What's souls issue?

So I am completely confused. I bought a server yesterday morning, changed the loot economy, animal/zombies quantity and spawn points. Got that all set up and noticed a few people join here and there, so I started a discord server last night around midnight and started adding the LegionKillfeed. I got everything set up added my API token which failed a few times till I fixed the permissions. So today I was trying to edit more make a rules list and see what I could do with the kill feed but I deleted a channel so the kill feed left my server and I tried adding it back. Well the API token wasn't working so I tried to get the bots help and accidentally invited to the server instead. I tried the API a few more times and it failed so I was confused I thought all was fixed when soul messaged me asking what's my problem. I responded and said I'm having a problem with setting it up and this is what they replied "Of course you're not, you aren't using a token sending ***** to the bot. You're 100% an alt tryna fuck with my shit. You only had my bot in here get a life". I responded and they stopped texting me. So I joined the kill feeds discord and he had @ me and said what's my problem I said nothing that I just need help, explained and he just kept accusing me of being an alt or something saying because I was the only one in the server I was a fake. I told him I just messed up the channel and he said that my token wasn't a token and that he knows I'm a fake that I have to know who he is because I'm in AGGRO PvP but I've only joined the discord to know the rules other then that I mute all servers unless they specifically @ me. Well he ended up banning me from everything after I asked why he was being so mean and that all I'm trying to do is set up a server for my mom and I. Has this happened to anyone else? Is he always such a douche? He didn't let me prove anything just accused me a bunch and I've never met the dude or had any other interactions yet he was adamant that because I was on aggro I must be some sort of hack or something I'm not sure. I'm just really confused and would like some alternatives to the kill feed I've seen a few but if anyone has any recommendations that are easier for first time users I'd be appreciative.

UPDATE: Soul responded and made a fake account which he accused me of, to comment on this post 2 months later after a few others came forward about his behavior towards them.

UPDATE #2: Soul has made multiple fake accounts now and is still commenting on this post 6 months later!! Don't press on any of the links or anything that he sends I've been informed he's a serious problem in the coding/DayZ community. If you have his bot get it out of your server now! Check any and all commenters post history as most of the accts backing him have just been made!

UPDATE #3: Make your own opinion from the info around you, random accounts commenting, low karma, only been around a year, ect. Right after this post was put up to add And after a year, comments still ensue regarding Soul and how this is all defamatory. I will no longer be interacting with this post regarding Soul, this post is MY recanting of MY interaction with someone named/presenting themselves as soul. Edited: 02/28/2026

Couldn't have done much research bud, look at this whole thread, anything defending me is usually removed, yet they have provided nothing to support their claims, yet I've got all the proof public on the url not.lotsa.fun, they turned links off to bury the proof. [u/Brief_Ordinary1438](#) is a competitor, friends with the sub reddit moderator & using this to spread misinformation, there's a whole audio book about it.

Yeah man I'd go somewhere else, everything I've seen heard and witnessed myself is not good. I'd get that bot out as soon as you can 🙄

Yes thank you, I found your guy's bot in a server I was in and have subscribed to the premium. I've asked for help a few times and y'all have stepped up and been beyond helpful. I also wrote a review because y'all were helping educate me having no clue about code and absolutely no judgement. I really appreciate it and am so glad I found y'all's bot. Y'all rock! 🙌

Legion Killfeed is just around to collect and sell your files. He's done so in the past with other servers. Before the killfeed he deleted Greedys server files and also the servers of multiple servers he had FTP access to. These are not false claims this is JUST who Soul is. Look around he's got the scammer tag is many of the DayZ discords.

There's been hundreds of complaints in the community about legion Killfeed. The bot downloads custom files from customers and the owner Soul (the Killfeed maker) sells them for profit.

Soul is a known Scammer in so many communities. Would never ever ever trust him to hold a token for any server!

The guy is a total douche bag. He threatened to remove my bot because I didn't respond to him in his time frame as I didn't even see that he replied. I also had settings setup where I don't see anything except @. More dramatic than a fucking woman.

Alts what? This is almost the exact same user as my other and I've had the account forever are you actually insane or seriously paranoid?

Lmao Abused you? You didn't add anything of what I first said or what you responded. Plus do you even know what slander means? "the action or crime of making a false spoken statement damaging

Also had to look up what SQL injection means because like I said several times I just started a server and was trying to figure out how everything worked and if you had actually listened rather than being a douche you would have came to the same realization that I did, which was BahBahBlackSheep was the description name of my token not the actual token itself as I thought the description was a password to use for the token.

Yeah obviously newby mistake who knows nothing about coding.

Also I reset up the channels 4 times because it's wasn't logging my connections to the server. If I'm such a big hacker why dont you soul, apparently the person involved in every little thing and knows everything when it comes to hackers know me? And what post about toxicly raiding players? One of my last posts is a post on finding a server a couple of guys said to add them and that I'd look into making my own server. I even have the discord sent and one of them joined so go off I guess. Doesn't matter though I found another killfeed and it works no problems and guess what when I had dumb ass questions they didn't ban me from everything. By the way very poor way to run a business.

You're slandering me, accusing me of a crime and saying I abused you it's truly laughable. Someone as you say is so reputable.

Also by the way my post was asking if anyone else has dealt with your douchiness and I quoted you. Anyway I got everything set up without your stupid shit and useless 'help'

Soul has done nothing for his killfeed and when asked about it I got banned with no money back on my subscription. He's just going and scamming people for their tokens and money I would highly recommend any other bot.

So many bad experiences with Legion killfeed. This bot should be watched and avoided at all cost it might look okay but the code has malicious intent. It removed and edited my files without my permission. It also adjusted servers settings was told " it's needed for the bot to work"

Soul has screwed over other owners in the past and has a bad reputation with a lot of servers owners.

DO YOUR RESEARCH BEFORE ADDING LEGION KILLFEED!!!

Holy moly guys, I had the worst experience with LegionKillfeed. That soul boy is such a clown. Unwilling to assist with anything. Threats ppl like garbage. You can definitely tell the lawsuits are getting the better of him.

Do yourselves a massive favour and join dayz+ + instead. Their services is just 110% better and actually worth your time, money and energy.

[u/Brief_Ordinary1438](#) is actually Kamikaze, the guy who has a record of doing this same stuff to:

- Accolade PVP
- The Greedy Peasant
- Skull'N'Roses DayZ Servers
- EpicFailWinner's The Creep Show AKA The DeathMatch
- ShotsX3
- TBag
- Bring Your Own Bullets
- DayZ Modding Community

For example, the FTP files reference, Greedy said it wasn't Soul, PissedOffTexan said it wasn't Soul. That [DayZ Skynet sKami](#) said it was "Azzy" who did the FTP stuff in 2021, whoever that is. sKami was the only suspect. 2 years later he blames Soul.

- [Soul carried sKami](#)
- [They tried to do this same shit on Trustpilot](#)
- [Ain't it weird to anyone else that there's very specific claims that only sKami has ever made?](#)

[Skip to main content](#)[Create](#)

- [SkyNet got exposed for it by their own AI](#)
- [There is so much proof this is nothing but character assassination](#)
- [Legion Killfeed is even suing reddit, facebook, Trustpilot & more for this defamation](#)

Lmao bro you made a fake account to comment on a post from 2 months ago. Grow TF up, I've moved on and found a better bot and multiple people have said you're a hack. I don't need anything else from you, and I blocked for the same reason I'm gonna block you before you can see this. You are not worth it to argue with you're clearly delusional and have a real issue with people calling you out on your bs (hence make a fake 2 months later 🤪) I've even had people send private DMs confirming you did similar if not the same shit. Anyway you're just making yourself look worse, Maybe get therapy?

Dies ist nicht der Benutzer, den Sie in Frage haben. Die Informationen wurden zusammen mit einem Datenbank-Dump durchgesickert. Es ist bekannt, dass Soul FTP nutzt, um Server zu zerstören und Chaos in der DayZ-Community anzurichten. Der Benutzer konzentriert sich auch mehr auf das Drama als auf grundlegende Sicherheitsbedürfnisse, einschließlich SQL-Injection in die Datenbank. das muss noch behoben werden. Es gibt viele Leute, die klare Beweise vorlegen, dass dieser Benutzer nur auf finanziellen Gewinn und persönlichen Gewinn wichtiger Informationen aus ist. Dieser Benutzer entwendet Benutzerdateien mithilfe eines Tokens, um Benutzerdateien zu verkaufen und zu verteilen, um damit finanziellen Gewinn zu erzielen. Sehen Sie sich die Antworten und Rückmeldungen anderer Benutzer an, die in diesem Thread aufgeführt sind.

Wenn Sie darauf aus sind, gehackt und Dateien von Soul Lags gestohlen zu werden, zahlen Sie tatsächlich seine Gebühr und weinen Sie nicht, wenn es passiert. Soul engagiert sich für Drama in der Gemeinschaft. Er kümmert sich nicht um dich oder irgendjemand anderen, er kümmert sich nur um sein Drama und wird sein ganzes Geschäft darauf ausrichten. Der Mann konzentriert sich mehr auf Drama als auf die Arbeit an seinen kaputten Bots mit schlechter Sicherheit.

Yeah plus all the accounts that are backing him, have either just been created April 9th or has only commented on 2 things 1 being this post, he created 2 fakes and used I'm assuming an old one to comment on this post 2 months later, he's not holding himself together to well. At this point I would just ignore him, I'll keep screenshotting his replies and adding it to the update. He's making himself look absolutely crazy so hopefully it'll keep others from working with him.
